MINNESOTA.

CAPITAL, ST. PAUL.

POPULATION OF STATE, 780,773.

(Census of 1880.)

Males	419,149	Native	513,097
Females	361,624	Foreign	267,676
White	776,884	Chinese	25
Colored	1,564	Indians	2,300

Population according to census 1885, 1,117,798; increase per cent, 43.17.

Minnesota extends from 43° 30′ to 49° north latitude, and from 89° 29′ to 97° 5′ west longitude, and comprises an area of 83,531 square miles, or 53,459,840 acres. It is bounded on the north by the British Possessions from which it is partly separated by Rainy Lake and the river of same name, on the east by Wisconsin and Lake Superior, on the south by Iowa, and on the west by Dakota. The surface is an undulating plain, diversified with rolling prairies dotted with lakes and timber belts. The soil is extremely fertile, and the agricultural staple is wheat. The principal rivers of Minnesota are, the Mississippi, the St. Croix, the

Minnesota, the Red River of the North, and the St. Louis, all of which are navigable, and which, with their numerous tributaries, irrigate and drain every portion of the State. The climate is salubrious and invigorating, the summers are cool and pleasant, and although the winters are severe, the atmosphere is so dry and clear that the extreme cold is hardly noticeable.

Minnesota is neither a timber nor a prairie State, but possesses to a large degree the advantages of both, two-thirds of the entire area being prairie land and the balance being covered by forests of coniferous and deciduous trees. Wild animals are found in the forests and on the prairies, and pigeons, grouse and partridges abound. Copper and iron ore constitute the chief mineral wealth of Minnesota.

The following table shows the increase in population for the past 35 years:

1850	6,077	1880	780,773
1860	172,023	1885	1,117,798
1870	439,706		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 3,493; capital invested, $31 004,811; number of hands employed, 21,212; total wages paid during the year, $8,613,194; value of materials, $55,660,681; value of products, $76,065,198.

Rate of Mortality in Minnesota, as computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1000.	White.	Colored.	Rate per 1000, White.	Rate per 1000, Colored.
780,773	9,037	11.57	8,960	77	11.53	19.79

The total number of deaths from consumption during 1880, was 848, which was at the rate of 1.00 per 1,000 of population, or 93.83 per 1,000 of total deaths.

MEDICAL LAWS OF MINNESOTA.

The following is the substance of the statute, as given in the calendar (1882-83) of the University of Minnesota.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF MINNESOTA.

Be it enacted by the Legislature of the State of Minnesota:

SECTION 1. That every person practicing medicine in any of its departments shall present his diploma to the examining board hereinafter constituted, for verification as to its genuineness. If the diploma is found genuine, and if the person named therein be the person claiming and presenting the same, the board shall issue its certificate to that effect, signed by all the members thereof, and such diploma and certificate shall be conclusive as to the right of the lawful holder of the same to practice medicine in this State. If not a graduate, the person practicing medicine in this State shall present himself before said board and submit himself to examination as the said board shall require ; and if the examination be satisfactory to the examiners, the said board shall issue its certificate in accordance with the facts, and the lawful holder of such certificate shall be entitled to all the rights and privileges hereinafter mentioned..

2. The faculty of the medical department of the University of Minnesota shall organize as a board of examiners as herein provided, within three months after passage of this act: they shall procure a seal and shall receive, through their secretary, applications for certificates and examinations ; the president or secretary shall have authority to administer oaths, and the board to take testimony in all matters relating to its duties; it shall issue certificates to all who furnish satisfactory proof of having received diplomas or licenses from legally chartered institutions in good standing; it shall prepare two forms of certificates, one for persons in possession of diplomas or licenses, and the other for candidates examined by the board; it shall furnish to the county clerks of the several counties a list of all persons receiving certificates.

3. Said board shall examine diplomas as to their genuineness, and if the diplomas shall be found genuine as represented, the secretary of the board shall receive a fee of one dollar from such graduate or licentiate, and no further charge shall be made to the applicant ; but if it be found to be fraudulent, or not lawfully owned by the possessor, the board shall be entitled to charge and collect twenty dollars of the applicant presenting such diploma. The verification of the diploma shall consist in the affidavit of the holder and applicant presenting such diploma, that he is the lawful possessor of the same and that he is the person therein named.

4. All examinations of persons not graduates or licentiates shall be made directly by the board, and the certificates given by the board shall authorize the possessor to practice medicine and surgery in the State of Minnesota.

5. Requires holders of certificates to have them recorded with county clerks.

6. Requires county clerks to keep a list of certificates recorded.

7. Provides for a fee of $5 to be paid to the State treasury.

8. Examinations may be made in whole or in part in writing, and shall be of an elementary and practical character, but sufficiently strict to test the qualifications of the candidate as a practitioner.

9. Certificates may be refused to persons guilty of unprofessional or dishonorable conduct. Appeal may be made to the board of regents.

10. Any person shall be regarded as practicing, within the meaning of this act, who shall profess publicly to be a physician and to prescribe for the sick, or who shall append to his name the letters "M. D." But nothing in this act shall be construed to prohibit students from prescribing under the supervision of preceptors, or to prohibit gratuitous services in case of emergency. And this act shall apply to commissioned surgeons in the United States army and navy.

11. Requires itinerant venders of drugs, etc., and dealers, to pay a license fee of $100 a month.

12. Any person practicing medicine or surgery in this State without complying with the provisions of this act shall be punished by a fine of not less than fifty dollars ($50) and not more than five hundred dollars ($500), or by imprisonment in the county jail for a period of not less than thirty (30) days nor more than three hundred and sixty-five (365) days, or by both such fine and imprisonment, for each and every offense; and any person filing, or attempting to file, as his own, the diploma or certificate of another, or a forged affidavit of identification, shall be guilty of felony, and, upon conviction, shall be subject to such fine and imprisonment as are made and provided by the statutes of this State for the crime of forgery; but the penalties shall not be enforced till on and after the thirty-first (31st) day of December eighteen hundred and eighty-three (1883). *Provided*, that the provisions of this act shall not apply to those who have been practicing medicine five (5) years within this State.

Approved March 6, 1883.

MISSISSIPPI.

CAPITAL, JACKSON.

POPULATION, 1,131,597.

(Census of 1880).

Males	567,177	Native	1,122,388
Females	564,420	Foreign	9,209
Whites	479,398	Chinese	51
Colored	650,291	Indians	1,857

Mississippi extends from 30° 20′ to 35° north latitude and from 88° 12′ to 91° 40′ west longitude, and comprises an area of 47,156 square miles, or 30,179,840 acres. It is bounded on the north by Tennessee, on the south by Louisiana and the Gulf of Mexico, on the east by Alabama, and on the west by Arkansas and Louisiana. The northeastern is the highest part of the State, and the land slopes gently down to the south and west. The northwestern portion is generally swampy.

The principal rivers are the Mississippi, which washes the western shore, the Yazoo, Big Black Homochitto, Tombigbee, Pascagoula, Pearl and Tennessee.

The climate is warm, the winters being short and mild, the summers long and hot. The mean annual temperature as observed at Vicksburgh is 65.57, that of the summer 80.52, and of the winter 50.45. The average annual rainfall is about 54 inches, ranging from 48 inches in the northwest to 64 on the gulf coast.

The soil is fertile and vegetation is luxuriant, and large forests of deciduous and southern evergreen trees cover the surface. Red hickory, holly, spicewood, dogwood, sassafras, etc., flourish on the higher grounds of the Mississippi and Yazoo bottoms, while the more swampy portions contain swamp ash, cypress, privet, etc. The northeastern portion of the State consists of rich prairie table-land. Cotton and corn form the staples.

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 1,479; capital invested, $4,727,600; number of hands employed, 5,827; total wages paid during the year, $1,192,645; value of materials, $4,669,658; value of products, $7,495,802.

The best known medicinal springs in the State are the Ocean springs (chalybeate), in Jackson county, and Cooper's Well (chalybeate), in Hinds county, the postal name of which is Raymond.

Rate of Mortality in Mississippi, as Computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1000.	White.	Colored.	Rate per 1000, White.	Rate per 1000, Color'd.
1,131,597	14,583	12.89	6,022	8,561	12.56	13.12

Total number of deaths from consumption during 1880 was 1,287, which was at the rate of 1.10 per 1000 of population, or 88.25 per 1000 of total deaths.

The following table shows increase in population for the past 60 years:

1820	75,448	1860	791,305
1830	136,621	1870	827,922
1840	375,651	1880	1,131,597

MEDICAL LAWS OF MISSISSIPPI.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF MISSISSIPPI.

Be it enacted by the Legislature of the State of Mississippi:

1. That no person shall practice medicine in the State of Mississippi, unless he shall have received a license to practice, and have registered the same as hereinafter provided in this act.
2. That there shall be established boards of censors in the State of Mississippi, one board in each congressional district, whose duty it shall be to examine into the qualifications of applicants for such license.
3. That the board of censors in each district shall be composed of the two sanitary commissioners of said district; and in case the members of said board shall differ in their opinions as to the qualifications of the applicant, the record of examination hereinafter provided for shall be forwarded to the secretary of the State board of health, who shall decide between them, and issue or withhold the license as the case may be.
4. That examinations for license shall be in writing, and each board of censors in their examination for license to practice medicine shall be governed by such rules and regulations as shall be prescribed by the State board of health: *Provided*, said board shall not discriminate against any applicant on account of the system of practice he may advocate, and the State board of health shall have jurisdiction in cases of appeal from any decision of the board of censors. Any applicant for license whose application has been endorsed "unfavorable," may appeal from such decision to the State board: *Provided*, such appeal is claimed by the applicant by a notice in writing, lodged with the secretary of the State board of health within thirty days from the decision of the boards of censors. The State board shall decide such appeals on the written examination, filed with the secretary, at the meeting succeeding the filing of the notice of appeal.
5. That applicants for license under this act shall make their applications in writing, stating: 1st, his name in full; 2d, nativity and age; 3d, residence and postoffice; 4th, time spent in professional studies; 5th, physician or preceptor under whom studies were pursued, with postoffice address; 6th, courses of medical lectures attended; 7th, name of medical schools attended; 8th, if a graduate, name of college granting diploma; 9th, time spent in hospital, if any; 10th, time of practice, if any; 11th, school of practice chosen; 12th, references as to character.
6. That applicants for license shall be examined only on the following branches of medicine, viz: anatomy, chemistry, obstetrics, materia medica, physiology, pathology, surgery, hygiene.
7. That applicants for license shall deposit with their applications, each a fee of fifteen dollars and twenty-five cents, fifteen dollars of which shall be appropriated to the use of the board of censors as their remuneration, and out of which the expense of advertising the time and place of meetings of said board of censors, as is hereinafter provided, shall be paid; and twenty-five cents of said fee shall be forwarded to the secretary of the board of health, as a fee for services hereinafter provided for.
8. That an applicant for license, whose examination proves satisfactory to the board of censors, shall have a certificate to that effect furnished him by the board of censors, which certificate shall entitle him to practice medicine in the State of Mississippi for the period of thirty (30) days from the date thereof, and it shall be the duty of the board of censors to indorse the application "favorable" or "unfavorable," as may be determined by the board of censors, and forward it, together with the record of examination, with twenty-five cents (25 cents), to the secretary of the state board of health, who shall register said application, in a book kept for that purpose, and file it for future reference.
9. That in case a "favorable" indorsment is given the application, the State board of health, through their secretary, shall forward at once, to the applicant, a license to practice medicine in the State of Mississippi, and such license shall bear upon its face all the statements that appear upon the application, and shall be signed by the secretary and sealed with the seal of the State board of health.
10. That every person holding a license to practice medicine, shall have a transcript of the same recorded in the office of the circuit clerk of the county in which he resides, in a book kept for that purpose, and the circuit clerk shall attach to said license his certificate of record, and the clerk shall be entitled to a fee of one dollar and fifty cents, to be paid by said licentiate.
11. That if a license be not presented for record within thirty days from its date, the license shall be void and of no effect.
12. That when a licensed practitioner of medicine changes his residence into a county other than that in which his license is recorded, said license must be recorded as at first in the office of the circuit clerk of the county in which he intends to reside before he can engage in the practice of medicine in his new location; a certificate of which record shall be furnished by the circuit clerk to the secretary of the State board of health, for which service the clerk shall be entitled to a fee of one dollar and sixty cents.
13. That physicians living in other States near the borders of the State of Mississippi, engaged in the practice of medicine, whose practice extends into the State of Mississippi, may obtain license to practice in this State in the same manner as is required of resident physicians, said licenses to be recorded in the office of the clerks of the circuit courts in the county or counties in which they practice in this State; and this act shall not be construed so as to prevent physicians or surgeons from other States from treating cases in this State in charge of regular licentiates of this State.

14. That in case a license is lost, upon application, accompanied by a fee of ten cents, it shall be the duty of the secretary of the State board of health to issue a duplicate license in lieu of the one lost, and forward the same to said applicant.

15. That a temporary license may be granted an applicant by the State board of health, through their secretary, by virtue of which a person may practice medicine; but such temporary license shall specify upon its face the time for which it is granted, and shall be void after the next regular meeting of the board of censors of the district in which the licentiate may reside; but no succeeding application for temporary license for the same person shall be entertained by the State board of health, and the secretary of the State board of health shall be entitled to a fee of twenty-five cents for each temporary license granted.

16. That for the purpose of examining applicants for license under this act, the board of censors shall hold quarterly sessions, viz: on the second Monday in March, June, September and December in each year, at some convenient place near the center of the congressional district in which they reside. Thirty days' notice of said sessions shall be given by publication in one or more newspapers published in said district.

17. That every physician now practicing medicine in the State of Mississippi shall receive his license, without an examination as to qualification, from the State board of health, through their secretary, upon application for such license, accompanied by a fee of ten cents; said application to contain, under oath, the applicant's: 1st, the name in full; 2d, nativity and age; 3d, residence and post office; 4th, time spent in professional studies; 5th, physician or preceptor under whom studies were pursued, with postoffice address of same; 6th, courses of medical lectures attended; 7th, name of medical school attended; 8th, if a graduate, name of college granting diploma; 9th, time spent in hospital, if any; 10th, time of practice, if any; 11th, school of practice chosen; 12th, reference as to character: *Provided*, that such application is made by the 30th day of June, 1882, and if such license shall not have been recorded or filed within thirty days after its issuance, as heretofore provided, said license shall be void and of no effect: *Provided, further*, that said license shall show that it was granted under the 17th section of this act.

18. That the secretary of State shall furnish blanks and books of record to the State board of health, and books of record to the circuit clerks of each county, ruled and lined and otherwise prepared, as may be prescribed by the State board of health as necessary for the proper enforcement of the provisions of this act.

19. That any person making false statements in his application for license shall be guilty of a misdemeanor, and on conviction thereof shall be fined in a sum of not more than twenty-five dollars; and upon proof of such conviction, the State board of health shall revoke his license, and the State board of health shall notify the circuit clerk of the county in which said license may have been recorded, of such revocation, and it shall be the duty of the circuit clerk to erase the name of said person from the record.

20. That, for the purposes of this act, the words "practice medicine" shall mean to suggest, recommend, prescribe or direct, for the use of any person, any drug, medicine, appliance or other agency, whether material or not material, for the cure, relief or palliation of any ailment or disease of the mind or body, or for the cure or relief of any wound, fracture, or other bodily injury, or any deformity, after having received, or with the intent of receiving therefor, either driectly or indirectly, any bonus, gift, profit or compensation: *Provided*, that nothing in this act shall appy to females engaged solely in the practice of midwifery.

21. That peripatetic quacks and traveling charlatans shall not be licensed to practice medicine, as provided for in the 17th section of this act.

22. That it shall be the duty of the several judges of the circuit courts to give this Act in charge to the grand juries at every term of their several courts; and it shall be duty of the circuit clerk of each county in the State to furnish a list of persons registered in their offices, under this act, to the grand jury on the first day of each term of their several courts.

23. That every person or persons offending against the provisions of this act shall be guilty of a misdemeanor, and upon conviction thereof, shall, for each offence, be fined in a sum of not less than fifty nor more than five hundred dollars, or be imprisoned in the county jail not less than ten nor more than thirty days, or both such fine and imprisonment at the discretion of the court.

24. That this act shall take effect and be in force from and after its passage.

Approved February 28, 1882.

Missouri is bounded on the north by Iowa, on the South by Arkansas, on the east by the Mississippi river, which separates it from Illinois, Kentucky and Ten-

nessee, and on the west by Indian Territory, Kansas and Nebraska. It extends from 36° 30′ to 40° 30′ north latitude and from 89° 2′ to 95° 50′ west longitude, and comprises an area of 65,350 square miles, or 40,824,000 acres. The Missouri river which bisects the State laterally, divides Missouri into two distinct parts. The surface north of the river is generally level, while that south of it is undulating, becoming rougher and more mountainous as it approaches the Ozark mountains. The Mississippi and Missouri rivers with their numerous tributaries irrigate and drain every portion of the State. The climate is subjected to great extremes, the winters being very cold and the summers long and very warm. Despite this fact the State is considered a healthy one and is peculiarly suitable for persons suffering from consumption. The mean annual temperature as observed at St. Louis is 55.00, that of the summer 76.12, and that of the winter 32.90. The average annual rainfall is about 42 inches. Missouri is neither a timber nor a prairie State but partakes largely of the advantages of both; the northern and western portions are mainly prairie land while southern Missouri is well supplied with timber. The Ozark mountains are covered by forests of oak, elm, lime, sycamore, maple, hickory, etc., etc. The mineral resources of the State are very great, the principal being metal, iron, lead, and zinc, all of which are found in great quantities and are of excellent quality.

The following table shows increase in population for the past 60 years:

1820	66,557	1860	1,182,012
1830	140,455	1870	1,721,295
1840	383,702	1880	2,168,380
1850	682,044		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 8,592; capital invested, $72,507,844; number of hands employed, 63,995; total wages paid during the year, $24,309,716; value of materials, $110,698,392; value of products, $165,384,005. Corn and wheat are the staple products, cotton is profitably grown in the southern counties, and stock raising is one of the important industries of Missouri.

The following is a list of the best known mineral springs in the State: Climax springs, in Camden county; Excelsior springs, in Clay county; Montesano springs, in Jefferson county, and Sweet springs in Saline county.

Rate of Mortality in Missouri, as computed from U. S. Census of '80.

Population.	Deaths in 1880.	Rate per 1000.	White.	Colored.	Rate per 1000 White.	Rate per 1000 Colored.
2,168,380	36,615	16.89	33,649	2,966	16.63	20.37

Total number of deaths from consumption during 1880 was 3,604, which was at the rate of 1.60 per 1,000 of population, or 98.42 per 1,000 of total deaths.

MEDICAL LAWS OF MISSOURI.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE AND SURGERY IN THE STATE OF MISSOURI.

Be it enacted by the General Assembly of the State of Missouri, as follows :

SECTION 1. Every person practicing medicine and surgery, in any of their departments, shall possess the qualifications required by this act. If a graduate of medicine, he shall present his diploma to the State board of health for verification as to its genuineness. If the diploma is found to be genuine, and the person named therein be the person claiming and presenting the same, the State board of health shall issue its certificate to that effect, signed by at least five of the members thereof, and such diploma and certificate shall be deemed conclusive as to the right of the lawful holder of the same to practice medicine in this State. If not a graduate, the person practicing medicine in this State shall present himself before said board and submit himself to such examination as the said board shall require, and if the examination be satisfactory to the examiners, the said board shall issue its certificate in accordance with the facts, and the lawful holder of such certificate shall be entitled to all the rights and privileges herein mentioned.

2. The State board of health shall issue certificates to all who shall furnish satisfactory proof of having received diplomas or licenses from legally chartered medical institutions in good standing, of whatever school or system of medicine; they shall prepare two forms of certificates, one for persons in possession of diplomas or licenses, the other for candidates examined by the board; they shall furnish to the county clerks of the several counties a list of all persons receiving certificates: *Provided*, that nothing in this act shall authorize the board of health to make any discrimination against the holders of genuine licenses or diplomas under any school or system of medicine.

3. Said State board of health shall examine diplomas as to their genuineness, and if the diploma shall be found genuine as represented, the secretary of the State board of health shall receive a fee of one dollar from each graduate or licentiate, and no further charge shall be made to such applicant ; but if it be found to be fraudulent, or not lawfully owned by the possessor, the board shall be entitled to charge and collect twenty dollars of the applicant presenting such diploma ; the verification of the diploma shall consist in the affidavit of the holder and applicant ; that he is the lawful possessor of the same, and that he is the person therein named ; such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of such officer, if he have a seal. Graduates may present their diplomas and affidavits as provided in this act, by letter or by proxy, and the State board of health shall issue a certificate as though the owner of the diploma was present.

4. All examinations of persons not graduates or licentiates shall be made directly by the board, and the certificates given by the board shall authorize the possessor to practice medicine and surgery in the State of Missouri.

5. Every person holding a certificate from the State board of health shall have it recorded in the office of the county clerk of the county in which he resides, and the record shall be indorsed thereon ; any person removing to another county to practice medicine and surgery, shall procure an indorsement to that effect on the certificate from the clerk of the county court, and shall have the certificate recorded in the office of the clerk of the county to which he removes, and the holder of the certificate shall pay to said clerk of said county the usual fees for making the record.

6. The county clerk shall keep, in a book provided for the purpose, a complete list of the certificates recorded by him, with the date of the issue. If the certificate be based on a diploma or license, he shall record the name of the medical institution conferring it and the date when conferred. The register of the county clerk shall be open to public inspection during business hours.

7. [Providing for the payment of an examination fee of five dollars was amended by the striking out the entire section.]

8. Examinations may be made in whole or in part, in writing, and shall be of a elementary and practical character, but sufficiently strict to test the qualifications of the candidate as a practitioner.

9. The board of health may refuse certificates to individuals guilty of unprofessional or dishonorable conduct, and they may revoke certificates for like causes, after giving the accused an opportunity to be heard in his defense before the board.

10. Any person shall be regarded as practicing medicine, within the meaning of this act, who shall profess, publicly, to be a physician, and to prescribe for the sick, or who shall append to his name the letters "M. D.;" but nothing in this act shall be construed to prohibit students from prescribing under the supervision of a preceptor, or to prohibit gratuitous services in cases of emergency; and this act shall not apply to commissioned surgeons of the United States army, navy and marine hospital service.

11. Any itinerant vendor of any drug, nostrum, ointment or appliance of any kind intended for the treatment of disease or injury, or who shall, by writing or printing, or any other method, publicy profess to cure or treat diseases, injuries or deformities by any drug, nostrum,

manipulation or other expedient, shall pay to the State a license of one hundred dollars per month, to be collected as provided by law, as all other licenses are now collected, and any person violating the provisions of this section shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine not to exceed five hundred dollars ($500), or by imprisonment in the county jail not to exceed six months, or by both such fine and imprisonment.

12. Any person practicing medicine or surgery in this State, without complying with the provisions of this act, shall be deemed guilty of a misdemeanor, and be punished by a fine of not less than fifty dollars, nor more than five hundred dollars, or by imprisonment in the county jail for a period of not less than thirty days, or by both such fine and imprisonment for each and every offense; and any person filing or attempting to file, as his own, the diploma or certificate of another, or a forged affidavit of identification, shall be guilty of a felony, and, upon conviction thereof, shall be subject to such fine and imprisonment as are made and provided by the statutes of this State for the crime of forgery in the second degree, but the penalties shall not be enforced until a period of six months after the passage of this bill: *Provided*, that the provisions of this act shall not apply to those that have been practicing medicine five years in this State.

13. Whenever in this act it is provided that any duty or service shall be performed by any county clerk, such duty and service in the city of St. Louis shall be performed by the city register or health commissioner of the city of St. Louis, as if such officer was specially named to perform these duties and services.

14. All acts and parts of acts inconsistent with this act are hereby repealed.

Went into effect July, 1883.

The act providing for a State board of health also became a law July 1, 1883, and the board has been appointed. By sec. 8 of this act, physicians, surgeons and accoucheurs are required, under a penalty of ten dollars, to report all births and deaths which may occur under their supervision.

ANTI-SEPTIC

For Internal and External Use

FORMULA.—Listerine is the essential Antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria, and Mentha Arvensis in combination. Each fluid drachm also contains two grains of refined and purified Benzoboracic Acid.

Antiseptic, Prophylactic, Disinfectant, Non-Toxic, Non-Irritant, Non-Escharotic, Absolutely Safe, Agreeable, Scientific, and Strictly Professional,

And equally adapted to internal use and the surgical treatment of all parts of the human body, whether by spray, irrigation, or simple local application,

LISTERINE Comes Nearer an Ideal Antiseptic than Any Preparation ever Presented to the Medical World.

LISTERINE has withstood the comparative clinical tests of the many officinal drugs recently classed as antiseptics in the natural progress of medical theories and laboratory observations, no one of which so happily combines the above qualities as this carefully prepared formula of Benzo-Boracic Acid with Vegetable Products and Ozoniferous Essences, all antiseptics and chemically compatible.

Send for new Formula Book and General Reports establishing its value externally in **Surgery, Obstetrics, Gynæcology, Leucorrhœa, Gonorrhœa and all Mucous Membrane Catarrhs; internally in Typhoid and other Fevers, Zymotic Diseases, Diphtheria, Scarlet Fever, Dyspepsia, Dysentery, Diarrhœa and all forms of Cholera, and as a general Prophylactic.**

ANTI-LITHIC

For the Uric Acid Diathesis.

FORMULA.—Each fluid drachm of "LITHIATED HYDRANGEA" represents thirty grs. of FRESH Hydrangea, and three grs. of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is *invariably* of *definite* and *uniform* therapeutic strength, and hence can be depended upon in clinical practice.

Kidney Alterative and Anti-Lithic.

Reliable, Uniform and Definite.

The solution and elimination of an excess of uric acid and urates is best attained by an intelligent combination of certain forms of Lithia and a Kidney Alterative.

The ascertained value of Hydrangea in Calculous Complaints and Abnormal Conditions of the Kidneys through the earlier reports of Drs. Atlee, Horsley, Monkur, Butler and others, and the well-known utility of Lithia in the diseases of the uric acid diathesis, *at once* justified the therapeutic claims for Lambert's Lithiated Hydrangea when first announced to the Medical Profession, and it is now regarded by Physicians generally as the best and most soothing Kidney Alterative and Anti-Lithic Agent yet known in the treatment of

Urinary Calculus, Diabetes, Gout, Cystitis, Rheumatism, Hæmaturia, Bright's Disease, Albuminuria And Vesical Irritations generally.

MONTANA.

CAPITAL, HELENA.

POPULATION OF STATE, 39,159.

(Census 1880).

Males	28,177	Native	27,638
Females	10,982	Foreign	11,521
White	35,385	Chinese	1,765
Colored	346	Indians	1,663

The territory of Montana extends from 104° to 116° west longitude, and from 44° 25′ to 49° north latitude, and is bounded on the north by the British Possessions, on the south by Idaho and Wyoming Territories, on the west by Idaho, and on the east by Dakota. It contains an area of 143,776 square miles, or 92,016,640 acres.

The western portion of the Territory is mountainous and the eastern is a vast rolling table land. The principal range of the Rocky mountains extends along the southwestern boundary of the Territory, and the scenery in many parts is grand and picturesque. Besides the two great rivers, the Missouri and the Columbia, which have their sources in Montana, there are a number of other noble streams in the Territory, notably, the Yellowstone, Jefferson, Madison, Musselshell, Gallatin and Deer Lodge rivers.

The climate is milder than the latitude and elevation would seem to indicate, the mean annual temperature as observed at Helena being 43.04, that of the summer 70.28, and of the winter 19.16. The mountains are covered with forests of coniferous trees. Gold and silver are mined extensively, the annual output being very large. As a grazing region Montana is unsurpassed, and the river bottoms are exceedingly fertile and all the cereals grow luxuriantly. Game of all sorts abound, and the rivers are well stocked with fish.

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 196; capital invested, $899,390; number of hands employed, 578; total wages paid during year, $318,759; value of materials, $1,006,442; value of products, $1,835,867.

The white sulphur springs in Meagher county are the most celebrated medicinal springs in the Territory.

Rate of Mortality in Montana, as computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000 White.	Rate per 1,000 Colored.
39,159	336	8.58	297	39	8.39	10.33

Total number of deaths from consumption during 1880, was 19, which was at the rate of 40 per 1,000 of population, or 56.54 per 1,000 of total deaths.

MEDICAL LAWS OF MONTANA.

Dr. C. G. BROWN, of Helena, writes:

In reply to your letter, I will say that medical laws in Montana are like angels' visits, "few and far between." Each physician is required to pay a yearly license of $16, and there is a law which says only M. D.'s shall receive a license, but there is no one to enforce it. Any one who applies to the county treasurer, says he has graduated, and "produces" $16, gets his credentials, and enters into the "free-for-all."

We need a territorial board to regulate things. An effort was made at the last session of the Legislature to secure such a board, a medical practice act, etc; but, alas, we were accused of trying to get a corner on the practice of medicine, and the result was a failure. We hope to accomplish more at the next session.

A bill was passed at the last session, establishing county boards with power to take care of contagious diseases, etc., but nothing touching the rights of practitioners, of whatever type or creed. I believe there is not a medical society in Montana, and there seems to be very little desire for mutual improvement.

NEBRASKA.

CAPITAL, LINCOLN.

POPULATION OF STATE, 452,402.

(Census of 1880.)

Males	249,241	Native	354,988
Females	203,161	Foreign	97,414
White	449,764	Chinese	18
Colored	2,385	Indians	235

Population according to census 1885, 740,645; increase per cent, 63.71.

Nebraska extends from 40° to 43′ north latitude, and from 95° 13′ to 104° west longitude, and is bounded on the north by Dakota, on the south by Kansas and Colorado, on the east by Iowa and Missouri, and on the west by Colorado and Wyoming Territory. It comprises an area of 75,995 square miles, or 48,636,800 acres. The surface is level or gently undulating, and the soil, especially in the river bottoms, is extremely fertile and productive. The State is fairly well timbered, forests of deciduous trees being found in the valleys. The uplands are specially adapted for stock raising and wool growing. The principal rivers are the Missouri, which forms part of the northern and all the eastern boundary, the Niobrara, and the Nebraska or Platte. The climate is salubrious, the mean annual temperature as observed at Omaha being 49.28, that of the summer 74.26, and that of the winter 23.36. The average annual rainfall is about 26 inches. Coal, salt, iron, gypsum, alum, sand and limestone constitute the mineral wealth of Nebraska, and wheat, corn and oats are the agricultural staples.

The following table shows increase in population for the past quarter of a century:

1860	28,841	1880	452,402
1870	122,993	1885	740,645

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 1,403; capital invested, $4 881,150; number of hands employed, 4,793; total wages paid during the year, $1,743,311; value of materials, $8,208,478; value of products, $12,627,336.

The medical colleges of Nebraska are the Omaha Medical College, Omaha, and the University of Nebraska College of Medicine, which has two departments, Regular and Homœopathic.

The public school system is excellent, Nebraska possessing more and better schools than any State of its age.

Rate of Mortality in Nebraska, as computed from the U. S. Census of 1880:

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000, White.	Rate per 1,000, Colored.
452,402	5,930	13.11	5,875	55	13.06	20.84

MEDICAL LAWS OF NEBRASKA.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF NEBRASKA.

Be it enacted by the Legislature of the State of Nebraska :

SECTION 1. It shall be unlawful for any person to practice medicine, surgery or obstetrics, or any of the branches thereof, in this State, without first having complied with the provisions of this act relating to registration; and no person practicing medicine, surgery or obstetrics, or any part of the branches thereof, shall be entitled to registration unless possessed of the qualifications required by section 4 of this act.

2. It shall be the duty of all persons claiming to be physicians and surgeons, and intending to practice medicine, surgery or obstetrics in the State of Nebraska, before beginning the practice thereof, or any of the branches thereof, to register as a physician, by filing with the county clerk of the county in which he or she resides, or in which he or she intends to practice, a statement, in writing, under oath or affirmation, giving his or her full name, age, place of birth, place of residence, place of business, and the time he or she has practiced medicine, and when and where he or she has so practiced, and the time of such practice in each place, and if he or she is or has been a member of any medical society or societies, the name and location of such society or societies, and if he or she is a graduate of any medical college or university. Such statement shall be filed by the county clerk, and by him recorded in a book to be kept for that purpose, to be called the "Physicians' Register."

3. Whoever shall knowingly make any false statement or statements in the statement mentioned in sec. 2 of this act, shall be deemed guilty of a felony, and, upon conviction thereof, shall be subject to the same penalties which attach to the crime of perjury, under the laws of the State of Nebraska.

4. [An amendment to the original act passed in February, 1883.] No person shall be entitled to registration as a physician or surgeon under the provisions of this act, or to practice medicine, surgery or obstetrics, or any branch thereof, in this state, unless he or she shall be possessed of one of the qualifications named in this section, as follows:

First, a graduate of a legally chartered medical college or institution having authority to grant the degree of Doctor of Medicine; or,

Second, Persons who can show evidence that they have passed a satisfactory examination before medical boards of other States, created for the purpose of such examination, and all surgeons and assistant surgeons who were commissioned and served as such in the late war of the rebellion; or,

Third. A person who shall have, at the time this act takes effect, attended one course of lectures in a legally chartered medical college or institution having authority to confer the degree of Doctor of Medicine, and practiced medicine continually for three (3) years, the last one year of which practice shall have been in this State; or,

Fourth. A person who shall have been, at the time of the taking effect of this act engaged in the practice of medicine, surgery or obstetrics for a livelihood, for a period of ten years, the last two years of which practice has been in this State: *Provided*, that no person not a resident of this State at the time this act takes effect, who has not received the degree of Doctor of Medicine from a legally chartered medical college or institution having authority to grant the same, shall be admitted to registration under this act, or authorized to practice medicine, surgery or obstetrics in this State.

5. It shall be the duty of the county clerk in each county of this State to provide, and keep in his said office as a public record, a book to be entitled "The Physicians' Register," in which book the clerk shall record the statement named in section two of this act, and properly index the same, and for filing, recording and making transcripts of such statements, the clerk shall be entitled to the same fees as allowed by law for like services as to conveyances of real estate.

6. Any person who shall have filed the statement required by section two of this act, in one county, and shall remove to another county, shall, before entering upon the practice of his pro-

fession in such last-named county, procure a certified copy of the record of his former registry, and cause such transcript to be filed and recorded in the physicians' register of such county in which he has removed.

7. Certified copies of the record of such statements or transcripts shall be received in evidence in all courts instead of the original statement filed with the county clerk.

8. No person shall recover, in any court of this State, any sum of money whatever for any medical, surgical or obstetrical services, unless he shall have complied with the provisions of this act relating to registration, and is one of the persons authorized by this act to be registered as a physician.

9. Any person, not possessing the qualifications for the practice of medicine, surgery or obstetrics required by the provisions of section four of this act, or any person who has not complied with the provisions of section two of this act as to registration, who shall engage in the practice of medicine, surgery or obstetrics, or any of the branches thereof, in this State, shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be fined in any sum not less than twenty dollars nor more than one hundred dollars, and costs of prosecution, for each offense, and shall stand committed until such fine and costs are paid.

10. A person shall be regarded as practicing medicine, within the meaning of this act, who shall publicly profess to be a physician, surgeon or obstetrician, or prescribe for the sick. But nothing in this act shall be construed to prohibit students from practicing under the supervision of a registered preceptor, or to prohibit gratuitous services in cases of emergency, and this act shall not apply to commissioned surgeons in the United States army and navy.

11. Any itinerant vender, who is not qualified as hereinbefore provided, of any drug, nostrum, ointment or appliance of any kind, intended for the treatment of any disease or injury, or shall, by writing, printing or any other method except by ordinary professional card or sign, publicly profess to cure or heal disease, injury or deformity, by any drug or nostrum, shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be fined not less than fifty dollars nor more than one hundred dollars, or be imprisoned in the county jail for a period of not less than thirty days nor more than three months, or both, in the discretion of the court, for each offense.

Approved March 3, 1881. Took effect June 1, 1881.

NEVADA.

CAPITAL, CARSON CITY.

POPULATION OF TERRITORY, 62,266.

(Census of 1880.)

Males	42,019	Native	36,613
Females	20,247	Foreign	25,653
White	53,556	Chinese	5,419
Colored	488	Indians	2,803

Nevada extends from 114° to 120° West, longitude, and from 35° to 42° North latitude, and is bounded on the north by Oregon and Idaho, on the southwest and west by California, and on the east by Utah and Arizona. It comprises an area of 109,740 square miles or 70,233,600 acres. The surface generally is a lofty table land, traversed by nearly parallel mountain ranges. The largest rivers of Nevada are the Colorado, Humboldt, Truckee, Quimis and Reese. The climate is subject to great extremes, the winters being very cold, the summers hot. The atmosphere is dry with but little rain or snow. The mean annual temperature is 54.13; that of the summer 75.18, and of the winter 34.55. Stock raising is carried on extensively, as is also wool growing. Nevada is pre-eminently a mining State, the output of gold and silver being enormous. The soil when irrigated is fertile.

The following table shows increase in population since 1870:

1870	42,491	1880	62,266

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 184; capital invested, $1,323,300; number of hands employed, 577; total wages paid during the year, $461,807; value of materials, $1,049,794; value of products, $2,179,626.

The State contains many medicinal springs, those best known being Steamboat Springs, in Washoe county; Pueblo Hot Springs, in Humboldt county; Volcano Springs, in Lander county; the Hot Springs of Pyramid Lake, Indian Springs, Turnley's, etc., etc.

Rate of Mortality in Nevada, as computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1000.	White.	Colored.	Rate per 1000, White.	Rate per 1000, Colored.
62,266	728	11.69	680	48	12.69	5.51

Total number of deaths from consumption during 1880 was 46, which was at the rate of .90 per 1,000 of population, or 63.18 per 1000 of total deaths.

MEDICAL LAWS OF NEVADA.

AN ACT TO PREVENT THE PRACTICE OF MEDICINE AND SURGERY BY UNQUALIFIED PERSONS.

The people of the State of Nevada, represented in Senate and Assembly, do enact as follows:

1. No person shall practice medicine or surgery in this State who has not received a medical education and a diploma from some regularly chartered medical school, said school to have a *bona fide* existence at the time when said diploma was granted.

2. Every physician or surgeon, when about to take up his residence in this State, or who now resides here, shall file for record with the county recorder of the county in which he is about to practice his profession, or where he now practices it, a copy of his diploma, at the same time exhibiting the original, or a certificate from the dean of the medical school of which he is a graduate, certifying to his graduation.

3. Every physician or surgeon, when filing a copy of his diploma or certificate of graduation, as required by section 2 of this act, shall be identified as the person named in the papers about to be filed, either by affidavit of two citizens of the county, or by his affidavit taken before a notary public or commissioner of deeds for this State, which affidavit shall be filed in the office of the county recorder.

4. Any person practicing medicine or surgery in this State without complying with sections one, two and three of this act, shall be punished by a fine of not less than fifty dollars ($50), nor more than five hundred dollars ($500), or by imprisonment in the county jail for a period of not less than thirty (30) days nor more than six (6) months, or by both fine and imprisonment, for each and every offense; and any person filing or attempting to file, as his own, the diploma or certificate of graduation of another, or a forged affidavit of identification, shall be guilty of a felony, and, upon conviction, shall be subject to such fine and imprisonment as is made and provided by the statutes of this State for said offense.

5. It shall be the duty of the police, sheriff or constable to arrest all persons practicing medicine or surgery in this State who have not complied with the provisions of this act, and the officer making the arrest shall be entitled to one-half of the fine collected.

6. No portion of this act shall apply to any person who, in an emergency, may prescribe or give advice in medicine or surgery in a township where no physician resides, or where no physician resides within convenient distance; nor to those who have practiced medicine and surgery in this State for a period of ten years next preceding the passage of this act, nor to persons prescribing in their own family.

7. This act shall go into force sixty (60) days after its final passage.

Approved January 28, 1875.

The following supreme court decisions relating to the above act are given in the digest of Nevada Reports and Lawyer's Circuit Court Reports (page 297, 1878).

1. Act to prevent the practice of medicine and surgery by unqualified persons constitutional. In constructing section 6 of said act, which provides that it shall not apply "to those who have practiced medicine or surgery in this State for a period of ten years next preceding the passage of this act," held that said provision is not in violation of section 21 of art. iv. of the State constitution. 10 Nev. 323.

2. Idem—How far constitutional. Held, that there is some reason for requiring ten years' practice in this State as a qualification for the continued practice of medicine and surgery; but there is no sort of reason for requiring that practice to have extended over the particular ten years *immediately* preceding the enactment of the law, and to this extent the law is unconstitutional, because in violation of the fourteenth amendment to the federal constitution; but omitting the words "next preceding the passage of this act," leaves a good and perfect statute: (By Beatty, J.)

3. Idem. Held, that said section is not in conflict with any of the provisions of the State or federal constitution: (By Hawley, C. J.)

New Hampshire is bounded on the North by Canada, on the south by Massachusetts, on the east by Maine and the Atlantic ocean, and on the west by Vermont, and extends from 42° 41′ to 45° 11′ north latitude, and from 70° 40′ to 72°

28′ west longitude. It comprises an area of 9,280 square miles, or 5,939,200 acres. The surface is mountainous with the exception of a tract of low level land some 30 miles wide extending along the 18 miles of sea coast. The principal rivers of New Hampshire are the Connecticut, Merrimac, Piscataqua, Saco and Androscoggin. The State is well timbered and forests of oak, pine, beech, birch, sugar maple, etc., cover the mountains and the northern counties, while the rivers are fringed with sycamores and willows. Wild animals are still found in the unsettled portions of the State. Iron, lead, silver, zinc and copper constitute the mineral wealth of New Hampshire. Granite, marble and soapstone quarries abound. Corn, oats and potatoes are the staple agricultural products.

The following table shows the increase in population for the past 60 years :

1820	244,022	1860	326,073
1830	269,328	1870	318,300

MEDICAL LAWS OF NEW HAMPSHIRE.

GENERAL LAWS RELATING TO THE PRACTICE OF MEDICINE, SURGERY AND DENTISTRY.

SECTION 1. It shall not be lawful for any person to practice medicine, surgery or midwifery unless such person shall have obtained a license from some medical society organized under the laws of this State, stating that he is qualified in the branches of the medical profession named in said license.

2. Every medical society, organized under the laws of this State, shall, at such time and in such manner as may be prescribed in its charter or by-laws, elect a board of censors, consisting of three members, who shall be elected for such term as may be prescribed in said charter or by-laws, which board shall have authority to examine and license persons to practice medicine, surgery or midwifery. The board shall issue licenses without examination to all persons who furnish evidence by diploma from some medical school authorized to confer degrees in medicine and surgery, when said board is satisfied that the person presenting such diploma has obtained it after pursuing some prescribed course of study and upon due examination. Said board shall also have power, upon due notice and hearing, to revoke any license granted by said board when improperly obtained, or when the holder has, by conviction for crime, or any other cause, ceased to be worthy of public confidence. Such license or revocation shall be recorded by the clerk of said medical society.

3. It shall not be lawful for any person, who is not duly authorized to practice medicine or surgery, to practice dentistry unless such person has received a dental degree from some college, university or medical school authorized to confer the same, or shall have obtained a license from the New Hampshire dental society.

4. Said dental society shall, at such time and in such manner as may be prescribed in its charter or by-laws, elect a board of censors, consisting of three members, who shall be elected for such term as may be prescribed by the society, which board shall have authority to examine and license persons to practice dentistry. The license shall be recorded by the clerk of said society.

5. No person receiving a license as herein provided shall be authorized to practice until he shall have procured the same to be recorded by the clerk of the court in the county where he

* No reply received in answer to enquiry requesting information.

resides, if a resident of this State ; if not a resident of this State, in the county where he intends to practice. Such licenses shall be recorded in a book provided for that purpose, and which shall bear the title and inscription of the medical and dental register of ——— county, and the fee for recording the same shall be fifty cents.

6. Each person receiving a license upon examination shall pay, for the use of the society granting the same, the sum of five dollars ; upon diploma, one dollar.

7. If any person shall practice medicine, surgery, midwifery or dentistry without being duly authorized as provided in this chapter, or after his license is revoked, he shall be punished by fine of not more than three hundred dollars for each offense.

8. The provisions of the preceding sections shall not apply to persons who have resided and practiced their profession in the town or city of their present residence during all the time since January first, eighteen hundred and seventy-five, nor to physicians residing out of the State, when called into the State for consultation with duly licensed physicians, or to attend upon patients in the regular course of their business.

NEW JERSEY.

CAPITAL, TRENTON.

POPULATION OF STATE, 1,131,116.

(Census of 1880.)

Males	559,922	Native	909,416
Females	571,194	Foreign	221,700
White	1,092,017	Chinese	172
Colored	38,853	Indians	74

New Jersey extends from 38° 56′ to 41° 30′ north latitude, and from 73° 55′ to 75° 32′ west longitude, and is bounded on the north by New York, on the south by Delaware bay, on the east by the Atlantic ocean, and on the west by Pennsylvania. It comprises an area of 7,576 square miles, or 4,848,640 acres. The northern portion of the State is mountainous, the central hilly, and the southern level or gently undulating.

The rivers which drain New Jersey are the Hudson, Delaware, Hackensack, Passaic and Raritan, besides many smaller streams.

The climate is mild, being tempered by the vicinity of the ocean. The mean annual temperature, as observed at Newark during a period of 24 years, was 50.50; that of the summer 70.35, and of the winter 30.75. The average annual rainfall is about 45 inches.

The State is still well timbered with oak, hickory, cedar, pine, walnut, etc. Its iron mines, quarries and clay banks are very valuable, and its fisheries (deep sea, oyster and fresh water) are a source of great profit. It has a large coasting trade, and considerable ship-building is carried on.

The following table shows increase in population for the past 60 years :

1820	277,426	1860	672,035
1830	320,823	1870	906,096
1840	373,306	1880	1,131,116
1850	489,555		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 7,128; capital invested, $106,226,593; number of hands employed, 126,038; total wages paid during the year, $46,083,045; value of materials, $165,280,179; value of products, $254,375,236.

Its agricultural products, including market garden produce, are very extensive.

The best known mineral springs in the State are Schooley's Mountain Springs (chalybeate), in Morris county, the postal address of which is Schooley's Mountain.

Rate of Mortality in New Jersey, as computed from the U. S. census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored	Rate per 1,000 White.	Rate per 1,000 Colored.
1,131,116	18,474	16.33	17,685	789	16.19	20.17

The total number of deaths from consumption during 1880 was 1,648, which was at the rate of 2.30 per 1,000 of population, or 89.20 per 1,000 of total deaths.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE AND SURGERY.

Be it enacted by the Senate and General Assembly of the State of New Jersey:

SECTION 1. That every person practicing medicine or surgery in this State, in any of their branches, for gain, or who shall receive or accept for his or her services any fee or reward, either directly or indirectly, shall be a graduate of some legally chartered medical college or university in good standing, or some medical society having power by law to grant diplomas;

and such person before entering upon said practice shall deposit a copy of his or her diploma, with the clerk of the county in which he or she may sojourn or reside, and shall pay said clerk ten cents for filing the same in his office; said copy to be a matter of record, and open to public inspection.

§ 2. That any person who shall practice medicine or surgery without conforming to the requirements of the first section of this act shall be deemed guilty of a misdemeanor, and on conviction shall be punished by a fine of twenty-five dollars, or imprisonment in the county jail not exceeding six months, or both, at the discretion of the court, for each prescription made, operation performed, or professional service rendered: *Provided*, that any person who shall have had twenty years' experience in the practice of medicine and surgery in one locality shall be exempt from the provisions of this act.

§ 3. That it shall be unlawful for any person, not qualified according to the first section of this act, to collect any fees for medical or surgical services.

§ 4. That any person who shall offer for record a copy of any diploma which shall have been issued to any other person, or a diploma issued or obtained fraudulently, shall be deemed guilty of a high misdemeanor, and on conviction thereof, shall be punished by a fine of not less than three hundred dollars nor more than five hundred dollars, or imprisonment at hard labor for not less than one nor more than three years, or both, at the discretion of the court.

§ 5. That nothing in this act shall be so construed as to prevent any physician or surgeon in good standing, and legally qualified to practice medicine or surgery in the State in which he or she resides, from practicing in this State; but all persons opening any office, or appointing any place where he or she may meet patients or receive calls, shall be deemed a sojourner in this State, and shall conform to the first section of this act.

§ 6. That this act shall take effect on the first day of June, one thousand eight hundred and eighty.

Original act, approved March 12, 1880. The second section, as given, being an amendment to the original act, was approved March 2, 1881.

The following supplement was approved March 17, 1882:

That any physician residing and practicing medicine and surgery in this State, and being a graduate of a regularly chartered medical college or university having the power to grant diplomas, who within one year after the passage of the act to which this is a supplement, shall have deposited a copy of his or her diploma with the clerk of the county, as required by said act, shall not be liable to any of the fines or penalties prescribed by said act, for failure to comply with the terms thereof.

NEW MEXICO.

CAPITAL, SANTA FE.

POPULATION OF STATE, 119,565.

(Census 1880.)

Males	64,496	Native	111,514
Females	55,069	Foreign	8,051
White	108,721	Chinese	57
Colored	1,015	Indians	9,772

Population according to 1885 census, 131,985. Increase per cent 10.38.

New Mexico extends from 31° 20′ to 37° north latitude, and from 103° to 109° 9′ west longitude, and is bounded on the north by Colorado, on the south by Texas and the Republic of Mexico, on the east by Texas and Indian Territory, and on the west by Arizona. It comprises an area of 121,201 square miles or 77,568,640 acres. The territory consists of high, level plateaus, intersected by mountain ranges.

The principal rivers are the Rio Grande, Canadian, Cimarron, Rio Colorado and Gila, and there are besides a number of less important streams.

The climate is salubrious; mild and equable winters being followed by cool and invigorating summers. The mean annual temperature at Santa Fe is 50.54; that of the summer 70.50, and of the winter 30.28. The rainfall is light, varying from 8 inches in the valley of the Rio Grande to 20 near the Texas State line.

Gold, silver, copper, coal, iron and lead are abundant, while mica, salt, gypsum, lime, sulphur, etc., are found in considerable quantities. There are also nine varieties of precious stones, among others turquoise, garnets and emeralds.

There is a sufficient supply of timber to supply the home demand.

New Mexico is pre-eminently a stock raising country, while the number of sheep in the territory exceeds that of any other territory in the Union.

The following table shows increase in population for the past 15 years :

1870	91,874	1885	131,985
1880	119,565		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been, 144; capital invested, $463,275; number of hands employed, 557; total wages paid during the year, $218,731; value of materials, $871,352; value of products, $1,284,846.

The best known medicinal springs in the Territory are the Agua Caliente (thermal), in Mesilla county, Las Vegas Hot Springs, San Miguel county, Ojo Caliente Springs in Taos county.

Rate of Mortality in New Mexico as Computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000, White.	Rate per 1,000, Colored.
119,565	2,436	20.37	2397	39	22.04	3.59

Total number of deaths from consumption during 1880, was 60, which was at the rate of .40 per 1,000 of population, or 24.63 per 1,000 of total deaths.

MEDICAL LAWS OF NEW MEXICO.

AN ACT to protect the Public Health and Regulate the Practice of Medicine in the Territory of New Mexico.

Be it enacted by the Legislative Assembly of the Territory of New Mexico.

SECTION 1. That a territorial board of medical examiners is hereby established, which shall be composed of seven practicing physicians of known ability and integrity, who are graduates of some medical school, college or university duly established under and by virtue of the laws of the country in which such medical school, college or university is situated, giving each of the three schools or systems of medicine the following representation, to wit: The allopathic school, or system of medicine, four members; the homœopathic school, or system, two members; the eclectic school, or system of medicine, one member.

2. The Governor shall, as soon as practicable after the passage of this act, appoint a territorial board of medical examiners, as provided for in the preceding section, who shall hold their offices for two years from and after their appointment, and until their successors shall have been appointed and qualified. Thereafter the Governor shall appoint, every two years, a like board as hereinbefore described, and he shall also fill all vacancies that may occur as soon as practicable after having been notified of the existence of such vacancy by the secretary of the board: *Provided*, that in making biennial appointments or filling vacancies, the representation of the medical schools shall not be changed from the original basis, as in section 1 of this act. The board of examiners so appointed shall go before a county judge and make oath that they are regular graduates or licentiates, and that they will faithfully perform the duties of their offices.

3. The territorial board of examiners shall organize within three months after the passage of this act. They shall procure a seal, and shall receive through their secretary applications for certificates and examinations. The president of such board shall have authority to administer oaths, and the board to take testimony in all matters relating to their duties. They shall issue certificates to all who furnish satisfactory proof of having received diplomas or licenses from legally chartered medical institutions in good standing: they shall prepare two forms of certificates, one for persons in possession of diplomas or licenses, the other for candidates examined by the board. In selecting places to hold their meetings, they shall, as far as reasonable, accommodate applicants residing in different sections of the territory, and due notice shall be published of all their meetings. Certificates shall be signed by all the members of the board granting them and by the president of the board, upon a recommendation of a majority thereof.

4. Said territorial board of examiners shall examine diplomas as to their genuineness, and if the diplomas shall be found genuine, as represented, the secretary of the board of examiners shall receive a fee of five (5) dollars from each graduate or licentiate, and no further charge

shall be made to the applicant; but if it be found to be fraudulent, or not lawfully owned by the possessor, the board shall be entitled to charge and collect twenty dollars of the applicant presenting such diploma. The verification of the diploma shall consist in the affidavit of the holder and applicant that he is the lawful possessor of the same, and that he is the person therein named. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of said officer, if he has a seal. Graduates may present their diplomas and affidavits, as provided by this act, by letter or by proxy, and the board of examiners shall issue its certificate the same as though the owner of the diploma were present.

5. All examinations of persons not graduates or licentiates shall be made directly by the board, and the certificates given by a majority of the board shall authorize the possessor to practice medicine and surgery in the territory of New Mexico.

6. Every person holding a certificate from a board of examiners, shall have it recorded in the county clerk's office in every county in which he practices, or attempts to practice, medicine or surgery, in a book kept by the clerk for that purpose, which shall be known as the certificate book of physicians and surgeons.

7. When the certificate is filed by the clerk, he shall record the same and attach his certificate thereto, which shall show the date of filing and recording, and the number of the book and page of the record, and shall keep an alphabetical index of the names of all physicians so filing their certificates, and he shall be allowed the same fees as now allowed for similar services.

8. Candidates for examination shall pay a fee in advance of ten dollars to the secretary.

9. All examinations of persons not graduates shall be made directly by the territorial board of examiners. Examinations may be made, in whole or in part, in writing, and the subjects of examinations shall be as follows, to wit: Anatomy, physiology, chemistry, pathology, surgery, obstetrics, and practice of medicine (exclusive of materia medica and therapeutics).

10. The territorial board of examiners may refuse certificates to individuals guilty of unprofessional or dishonorable conduct, and they may revoke certificates for like causes.

11. Any person shall be regarded as practicing medicine within the meaning of this act, who shall profess publicly to be a physician and to prescribe for the sick, or who shall append to his name the letters "M. D." But nothing in this act shall be construed to prohibit students from prescribing under the supervision of preceptors, or to prevent women from practicing midwifery, or to prohibit gratuitous services in cases of emergency. And this act shall not apply to commissioned surgeons or acting surgeons of the United States army and navy.

12. Any person practicing medicine or surgery in this Territory, without complying with the provisions of this act, shall be punished by a fine of not less than fifty dollars, nor more than five hundred dollars, for each and every offense; and any person filing, or attempting to file, as his own, the diploma or certificate of another, or a forged affidavit of identification, shall be guilty of a felony, and upon conviction shall be subject to such fine and imprisonment as are made and provided by the statutes of this Territory for the crime of forgery, but the penalties shall not be enforced until on and after the thirtieth day of June, eighteen hundred and eighty-two: *Provided*, that the provisions of this act shall not apply to those who have been practicing medicine ten years within this Territory.

13. The code of ethics of the American Medical Association shall be the standard and rule of decision concerning professional conduct of members of the medical profession for the purposes of this act.

14. A majority of the members of the medical board created by this act, when qualified according to the provisions of this act, are authorized and empowered to exercise all the powers and perform all the duties authorized and required of such board by the provisions of this act.

15. It shall be the duty of the attorney general and district attorneys to prosecute any and all persons who shall be guilty of violating any of its provisions.

16. Any person who shall unlawfully collect or receive any fee or compensation for services as physician or surgeon, in violation of the provisions of this act, shall be liable to the party from whom the same shall be collected or received in double the amount thereof, to be collected by an action in debt.

17. This act shall take effect and be in force from and after the date of its passage and approval.

The postoffice address is shown in **Display Type,** *the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.*

NEW YORK.

CAPITAL, ALBANY.

POPULATION, 5,082,871.

(Census of 1880.)

Males	2,505,322	Native	3,871,492
Females	2,577,549	Foreign	1,211,379
Whites	5,016,022	Chinese	926
Colored	65,104	Indians	819

The State of New York extends from 71° 51′ to 79° 47′ 25″ west longitude, and from 40° 29′ 40″ to 45° 0′ 42″ north latitude, and is bounded on the north and west by Canada, from which it is separated by the St. Lawrence river, Lake Ontario, Niagara river and Lake Erie, on the south by New Jersey and Pennsylvania, and on the east by Connecticut, Massachusetts and Vermont. It comprises an area of 47,000 square miles, or 30,080,000 acres. The surface is diversified and includes level fertile valleys, lofty mountain chains, beautiful lakes and rolling plateaux. That portion of the State lying east of the Hudson river valley is hilly and mountainous, and that lying west of the Hudson consists chiefly of rolling table lands, sloping gently to the north and west. The principal rivers are the Hudson, which rises in the Adirondacks and pursuing a southerly course debouches into New York Bay, its total length is about 300 miles and for the last 160 miles it is navigable for the largest vessels; the St. Lawrence, which washes a portion of the northern boundary and with its numerous tributaries drains and irrigates that portion of the State, the Oswego, Niagara, Allegany, Susquehanna, Mohawk and Delaware. The State has, including Long Island, a coast line of several hundred miles and possesses in New York Bay one of the finest harbors in the world. The mineral treasures of New York are great and consist of iron, lead, plumbago, copper, zinc, barium and strontium ores, alum and magnesia. The salt springs in Onondaga county yield annually several million bushels of pure salt. Quarries of marble, granite, sand and limestones abound.

The soil in the valleys is exceedingly fertile and productive, while the table lands and hilly districts are better adapted for grazing purposes. Immense crops of cereals are raised and tobacco is grown in several counties. The State is well wooded and the timber is varied and excellent. The climate is healthful, although marked by extremes of heat and cold. The winters in the Adirondack region are long and severe. The mean annual temperature, as observed at Albany, is 47.95, and in the city of New York, 51.83. The rainfall varies from 44 inches in the Hudson Valley, to 32 in the valley of the St. Lawrence.

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 42,739; capital invested, $514,246,575; total

number of hands employed, 531,473; total wages paid during the year, $198,634,029; value of materials, $679,578,650; value of products, $1,080,638,696. The falls of Niagara, the Genesee, Trenton, Portage, and many others, afford vast motive power, and the State possesses unequalled facilities for transportation by land and water.

The following table shows increase in population for the past 60 years.

1820	1,372,111	1860	3,880,735
1830	1,918,608	1870	4,382,759
1840	2,428,921	1880	5,082,871
1850	3,097,394		

The most favorably known medicinal springs in the State are: Avon Springs (sulphur), in Livingston county; Ballston spa (saline), Saratoga county; Cherry Valley springs (sulphur), Otsego county; Chittenango springs (sulphur), Madison county; Clifton springs (sulphur), Ontario county; Columbia springs (sulphur), Columbia county; Congress springs (sulphur), Saratogo county; Dryden springs (sulphur), Tompkins county; Excelsior spring, Saratoga county; Glacier spring, Saratoga county; Hawthorne spring, Saratoga county; Lebanon springs (thermal), Columbia county; Massena springs (sulphur), St. Lawrence county; Oak Orchard Acid springs (chalybeate), Genesee county; Richfield springs (sulphur), Otsego county; Saratoga springs (saline), Saratoga county; Sharon springs (sulphur and chalybeate), Schoharie county; Spencer springs, Tioga county; Triton spring, Saratoga county; White Sulphur springs (sulphur), Greene county.

Rate of Mortality in New York State as computed from the U. S. Census of '80.

Population.	Deaths in 1880.	Rate per 1000.	White.	Colored.	Rate per 1000 White.	Rate per 1000 Colored.
5,082,871	88,332	17.38	86,669	1,633	17.28	24.42

Total number of deaths from consumption during 1880 was 7,207, which was at the rate of 2.50 per 1,000 of population, or 81.59 per 1,000 of total deaths.

MEDICAL LAWS OF NEW YORK.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE AND SURGERY IN THE STATE OF NEW YORK.

The people of the State of New York, represented in the Senate and Assembly, do enact as follows:

1. A person shall not practice physic or surgery within the State unless he is twenty-one years of age, and either has been heretofore authorized so to do, pursuant to the laws in force at the time of his authorization, or is hereafter authorized so to do as prescribed by chapter seven hundred and forty-six of the laws of eighteen hundred and seventy-two, or by subsequent sections of this act.

2. Every person now lawfully engaged in the practice of physic and surgery within the State shall, on or before the first day in October, eighteen hundred and eighty, and every person hereafter duly authorized to practice physic and surgery shall, before commencing to practice, register in the clerk's office of the county where he is practicing, or intends to commence the practice of physic and surgery, in a book to be kept by said clerk, his name, residence, and place of birth, together with his authority for so practicing physic and surgery as prescribed in this act. The person so registering shall subscribe and verify by oath or affirmation, before a person duly qualified to administer oaths under the laws of the State, an affidavit containing such facts, and whether such authority is by diploma or license, and the date of the same and by whom granted, which, if willfully false, shall subject the affiant to conviction and punishment for perjury. The county clerk to receive a fee of twenty-five cents for such registration, to be paid by the person so registering.

3. A person who violates either of the two preceding sections of this act, or who shall practice physic or surgery under cover of a diploma illegally obtained, shall be deemed guilty of a misdemeanor, and on conviction shall be punished by a fine of not less than fifty dollars nor more than two hundred dollars for the first offense, and for each subsequent offense by a fine of not less than one hundred dollars, nor more than five hundred dollars, or by imprisonment for not less than thirty nor more than ninety days, or both. The fine when collecteed shall be paid, the one-half to the person or corporation making the complaint, the other half into the county treasury.

4. A person coming to the State from without the State may be licensed to practice physic and surgery, or either, within the State in the following manner: If he has a diploma conferring upon him the degree of doctor of medicine, issued by an incorporated university, medical college, or medical school without the State, he shall exhibit the same to the faculty of some incorporated medical college or medical school of this State, with satisfactory evidence of his good moral character, and such other evidence, if any, of his qualifications as a physician or surgeon, as said faculty may require. If his diploma and qualifications are approved by them, then they shall indorse said diploma, which shall make it for the purpose of his license to practice medicine and surgery within this State, the same as if issued by them. The applicant shall pay to the dean of said faculty the sum of twenty dollars for such examination and indorsement. This indorsed diploma shall authorize him to practice physic and surgery within the State upon his complying with the provisions of section two of this act.

5. The degree of doctor of medicine, lawfully conferred by any incorporated medical college or university in this State, shall be a license to practice physic and surgery within this State after the person to whom it is granted shall have complied with section two of this act.

6. Nothing in this act shall apply to commissioned medical officers of the United States army or navy, or of the United States marine-hospital service. Nor shall it apply to any person who has practiced medicine and surgery for ten years last past, and who is now pursuing the study of medicine and surgery in any legally incorporated medical college within this State, and who shall graduate from, and receive a diploma, within two years from the passage of this act.

7. All acts or parts of acts inconsistent with the provisions of this act are hereby repealed.

Passed May 29, 1880.

REMARKS: Dr. H. G. Piffard, of New York city, writes:

The New York law of 1880 is a good one. There is but one defect, namely, that perjury in registering is only a misdemeanor and punishable as such, and not a felony as it should and was intended to be. An intelligent lawyer can secure conviction in nearly every case he prosecutes. The law is of course not as good and as thorough as we would like; but it is as good as there is any prospect of having at present.

Dr. Piffard, in a series of articles which appeared in the New York Medical Journal, gives a history of medical legislation in New York, from which the following extracts are made:

The first law relating to the regulation of the practice of medicine in the State of New York, was passed in 1806, and amended in 1807. In 1813, a new act was passed, and this was amended in 1818 and in 1819. These statutes, although unsatisfactory, seem to have been stepping stones to greater powers, for in 1827, the profession gained a definite and substantial victory, the medical act of that year placing in their hands the supreme control and regulation of the practice of medicine in this State. The supression of quackery was in the hands of the county societies, each having jurisdiction in its own district. In 1842, a law was secured, by the efforts of homeopathic physicians, depriving the society of this power. This law, moreover, went further than this, as it repealed the penal clause of the act of 1827, and virtually permitted any who chose, educated or not, to practice medicine in this State. This permitted quacks of all sorts and descriptions to ply their vocations without fear of molestation.

By a law, enacted in 1866, the power of county societies to purge themselves of "irregular" practitioners was restored, giving them almost plenary powers in matters of discipline. The State medical society secured in 1880 the passage of a law reducing the number of bodies competent to legitimize practitioners of medicine, from one hundred and fifty to thirteen. These thirteen bodies are the medical colleges of the State. Now, 1883, reduced to eleven in number.

Prosecutions for violation of the law may be undertaken by individuals or county societies. In New York county these prosecutions have been numerous, and mainly successful. Thus far but one flaw or serious imperfection in the law has been discovered, namely, that the penalty for perjury in connection with registration is not sufficiently severe. That the law is all that is to be desired, or that it is the best medical act in this country, is far from being claimed. In fact, I believe Illinois and North Carolina have better ones, both from a theoretical and practical standpoint.

THE OAKLAND HOTEL

AND

HYGIONAMA.

To Physicians.

BELIEVING that there has long been felt the want of a **Curative Mineral Bathing Establishment and Health Resort,** where Patients may be benefited through the inexplicable agencies of the Mineral Water alone, under the skilled superintendence of a thoroughly competent physician, and where the suggestions of the Home physician would receive that consideration which professional ethics not only expect but have the right to demand; the proprietors desire to direct the attention of all reputable physicians to the fact that **The Oakland Hotel and Hygionama** *is a distinctive* resort of this character.

As a Winter Resort for Invalids

THE OAKLAND HOTEL and HYGIONAMA

Affords comforts and accommodations superior to any Curative Mineral Springs in America.

NORTH CAROLINA.

CAPITAL, RALEIGH.

POPULATION, 1,399,750.

(Census of 1880.)

Males	687,900	Native	1,396,008
Females	711,842	Foreign	3,742
Whites	867,242	Chinese	1
Colored	531,277	Indians	1,230

North Carolina extends from 33° 53′ to 36° 33′ north latitude, and from 75° 25′ to 84° 30′ west longitude, and is bounded on the north by Virginia, on the west by Tennessee, on the south by South Carolina and Georgia, and on the east by the Atlantic Ocean. It comprises an area of 50,704 square miles, or 32,450,500 acres. The surface is very varied, and may be divided into four distinct sections. The tide water or swamp lands, which extend 100 miles inland from the coast, have a sandy, fertile soil; the middle section is fertile, the Piedmont section hilly, and the blue ridge district mountainous.

The principal rivers of North Carolina are the Cape Fear, the Chowan, the Roanoke, the Tar, the Neuse and the Yadkin.

The climate is warm, the mean annual temperature being 58.52, that of the summer 77.24, and of the winter 40.14. The average annual rainfall is about 43 inches.

The State is well wooded, forests of deciduous and coniferous trees covering a large portion of its area. Gold, silver, lead, zinc, iron, coal and copper are mined.

The following table shows increase in population for the past 60 years:

1820	638,829	1860	992,622
1830	737,987	1870	1,071,361
1840	753,419	1880	1,399,750
1850	869,039		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 3,802; capital invested, $13,045,639; number of hands employed, 18,109; total wages paid during the year, $2,740,768; value of materials, $13,090,937; value of products, $20,084,237.

Wheat, corn, sweet potatoes and tobacco are the staples. The fisheries are large and valuable.

The best known medicinal springs in the State are Shoco Springs (sulphur), in Warren county; Sparkling Catawba Springs, in Catawba county; Warm Springs (thermal), in Madison county; Warren White Sulphur (sulphur), in Warren county, and the White Sulphur Springs, in Catawba county.

Rate of Mortality in North Carolina as Computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000, White.	Rate per 1,000, Colored.
1,399,750	21,547	15.39	12,167	9,380	14.02	17.61

Total number of deaths from consumption during 1880, was 2,063, which was at the rate of 1.50 per 1,000 of population, or 95.74 per 1,000 of total deaths.

MEDICAL LAWS OF NORTH CAROLINA.

AN ACT TO INCORPORATE THE MEDICAL SOCIETY OF THE STATE OF NORTH CAROLINA, AND FOR THE ESTABLISHMENT OF A MEDICAL BOARD OF EXAMINERS.

Be it enacted by the General Assembly of the State of North Carolina, and it is hereby enacted by the authority of the same:

1. That the association of regularly graduated doctors calling themselves "The State Medical Society," be, and they are hereby declared to be, a body politic and corporate, to be known and distinguished by the name and style of "The Medical Society of the State of North Carolina," and by that name and style shall have perpetual succession and a common seal; that they, or a majority of them, and their successors, shall be able in law to take, demand, receive and possess money, goods and chattels, lands and tenements, and apply the same to the use and for the advancement of the purposes and objects of the said society; that the said medical society or a majority of them, and their successors, shall be able and capable in law of suing and being sued, pleading and being impleaded; that they shall be authorized to make all by-laws, rules and regulations necessary and proper for their own government, and carrying out the purposes contemplated in this act, and for the promotion of medical science and the elevation of the medical profession in this State, not inconsistent with the constitution and laws of North Carolina.

2. That from and after the 15th day of April, 1859, no person shall practice medicine or surgery, or any of the branches thereof, or in any case prescribe for the cure of diseases for fee or reward, unless he or they shall have been first licensed so to do in the manner hereinafter described: *Provided*, that no person who shall practice in violation of this act shall be deemed guilty of a misdemeanor.

3. That in order to the proper regulation of the practice of medicine and surgery in the State of North Carolina, there shall be established a board of regularly graduated physicians, to be known by the name and title of "The Board of Medical Examiners of the State of North Carolina."

4. That the board of medical examiners of the State of North Carolina shall consist of seven regular graduated physicians.

5. That it shall be the duty of the said board to examine all applicants for license to practice medicine or surgery, or any of the branches thereof, in the State of North Carolina, on the following branches of medical science, viz: anatomy, physiology, surgery, pathology, medical hygiene, chemistry, pharmacy, materia medica, therapeutics, and the practice of medicine, and if, on such examination, he or they may be found competent, to grant to such applicant or applicants a license or diploma, authorizing him or them to practice medicine or surgery, or any of the branches thereof, in the State of North Carolina: *Provided*, that five members of the board shall constitute a quorum, and that four of those present shall be agreed as to the qualifications of the applicant.

6. That the said board shall be at liberty to examine for and grant license to practice medicine or surgery, or any of the branches thereof, in this State, to any person so applying, who shall give satisfactory evidence to the board that he is twenty-one years of age and of a good moral character. Such applicants, if found competent, shall have granted to them the license before mentioned, signed by the board of medical examiners, or a majority thereof, and if found incompetent, they shall be rejected.

7. That to prevent delay and inconvenience, two members of the board of medical examiners may grant a temporary license to applicants therefor, and make report thereof to the next regular meeting of the board for confirmation: *Provided*, that such temporary license shall not continue in force longer than the next regular meeting of the board, and that such temporary license shall in no case be granted after the applicant has been refused a license by the board of medical examiners.

8. That it shall be the duty of the medical society of the State of North Carolina to furnish to the General Assembly of the State of North Carolina, by their secretary, a list of members of that society, from which list the General Assembly shall elect seven to constitute the board of medical examiners before mentioned, to continue in office for the term of six years from the date of their election: *Provided*, that whenever any member of this board shall cease to be a member of the medical society of the State or North Carolina, either by resignation or expulsion, his office of medical examiner shall be thereby vacated.

9. That the members of the State medical society shall have power to select the board of medical examiners, except when the legislature choose to exercise this right.

10. That the board of medical examiners shall assemble at the same times and places, when and where the aforesaid medical society assembles, which said society shall assemble at least once in each and every year, at such time and place as the said society, at its next preceding meeting, shall have fixed; and the said board shall remain in session from day to day until all applicants who may present themselves for examination within the first five days after its meeting shall have been examined and disposed of. [This section was adopted, as an amendment to the original act, April, 1871.]

11. That the board of medical examiners shall be, and they are hereby, authorized to elect all such officers, and to frame all such by-laws as may be necessary to carry this law into effect; and in the event of any vacancy by death, resignation or otherwise, of any member of said board, the board, or a quorum thereof, shall be, and they are hereby, empowered to fill all vacancies.

12. That the board of examiners shall keep a regular record of its proceedings, in a book kept for that purpose, which shall always be open for inspection; and shall cause to be entered

on a book kept for that purpose the names of each applicant for license, and the name of each applicant licensed to practice medicine and surgery, and the time of granting the same, together with the names of the members of the board present, and shall publish the names of those licensed in two of the newspapers published in the city of Raleigh, within thirty days after the granting of the same.

13. That the said board shall have power to demand of each and every applicant thus licensed the sum of ten dollars, before issuing a license or diploma, and the sum of five dollars for each temporary license, to be paid to the secretary of the board.

14. That the members of the said board shall receive as a compensation for their services four dollars each day during the time of their session, and in addition thereto their traveling expenses to and from their places of meeting, by the most direct route from their respective places of residence, to be paid by the secretary of the board out of any moneys in his hands, upon the certificate of the president of the board of medical examiners. [This section was adopted, as an amendment to the original act, April, 1871.]

15. That any person who shall practice medicine or surgery in this State without having first applied for and obtained license from the said board of examiners as provided for by this act, shall not be entitled to sue for or recover before any magistrate or court in this State any medical bill for services rendered in the practice of medicine or surgery, or any of the branches thereof.

16. That the said board shall have the power to rescind any license granted by them, when upon satisfactory proof it shall appear that any physician thus licensed has been guilty of grossly immoral conduct.

17. That the secretary of the board of medical examiners shall give bond, with good security, to the president of the board for the safe keeping and proper payment of all moneys that may come into his hands under provisions of this act.

18. That the provisions of this act shall not apply to any person or persons now engaged in the practice of medicine or surgery in this State, but shall be construed as applying to those only who may hereafter propose to commence the practice of the same in the State of North Carolina.

19. That this act shall be in force on and after the 15th day of April, 1859, and shall be considered a public act.

POPULATION OF STATE, 3,198,062.

(Census of 1880.)

Males	1,613,936	Native	2,803,119
Females	1,584,126	Foreign	394,943
White	3,117,920	Chinese	112
Colored	79,900	Indians	130

The State of Ohio comprises an area of 39,964 square miles or 25,576,960 acres, and extends from 38° 25′ to 42° north latitude, and from 80° 28′ to 84° 42′ west longitude. It is bounded on the north by Michigan and lake Erie, on the south and southeast by the Ohio river which separates it from Kentucky and West Virginia, on the east by Pennsylvania, and on the west by Indiana. The surface is a high table land broken by ridges and ravines cut into the soft alluvial soil by the many streams which drain the State. The principal rivers are the Ohio, the Mahoning, the Muskingum, the Scioto, Maumee, Sandusky, Huron, Vermillion, Black, etc. The climate is mild and salubrious, the mean annual temperature varying from 49.99 at Cleveland to 54.72 at Cincinnati. The average annual rainfall is about 41 inches, being greatest along the Valley of the Ohio. The mineral wealth of the State consists chiefly in its vast fields of bituminous coal, and its almost inexhaustible deposits of iron ore. Salt is mined extensively and petroleum is obtained in the southeastern counties.

The soil is fertile and productive and wheat, indian corn, and oats form the agricultural staples. The great dairy farms are found in the northeastern counties, while in the southeast wool growing is the principal industry. Fruit flourishes on the southern shore of Lake Erie.

The following table shows increase in population during the past 60 years:

1820	581,295	1860	2,339,511
1830	937,903	1870	2,665,260
1840	1,519,467	1880	3,198,062
1850	1,980,329		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 20,699, capital invested, $188,939,614; number of hands employed, 183,609; total wages paid during the year, $62,103,800; value of materials, $215,098,026; value of products, $348,305,390.

The religious and educational facilities are of a very high order and leave nothing to be desired.

TROMMER'S EXTRACT OF MALT

Contains the soluble constituents of the best selected Canada Barley, Malt and Hops, and is richer in Diastase and other soluble albuminoids, soluble Phosphates, Maltose and Dextrin, than preparations made from other cereals.

Its Superiority as a Digestive agent and easy assimilable nutrient has been demonstrated by exhaustive chemical analysis, and by abundant clinical experience.

No preparation of malt of this class has been so long and so extensively employed as a medicinal food, being most highly esteemed by those who have had most experience in its use.

Its high nutritive value, blandness and acceptableness to the stomach, render it **an invaluable remedy for the restoration of feeble and exhausted constitutions, whether occurring in infancy or age.**

Besides directly promoting the digestion of both animal food and milk, the ordinary daily dose contains more than sufficient diastase to insure also the digestion of all kinds of starchy food.

Although it has been hitherto chiefly employed in disorders of digestion and assimilation, in chronic wasting diseases, anæmia, and as a restorative during convalescence, more recently it is growing in favor in acute febrile diseases, in which, in combination with light farinaceous aliment, it aids digestion and nutrition, allays irritation of the gastric and intestinal mucous membranes and sustains the strength of the patient.

Trommer's Extract of Malt for Infants and Children,

A pure extract of malt WITHOUT hops. This preparation being very pleasant to the taste, and of great diastasic activity, is much employed in the preparation of farinaceous food and to sweeten milk fed to children, or given clear during and subsequent to the period of weaning, as a nourishment and to promote the digestion of starchy food.

MEDICAL LAWS OF OHIO.

EXTRACTS, PERTAINING TO THE PRACTICE OF MEDICINE IN OHIO, FROM THE REVISED STATUTES OF OHIO, 1880—CHAPTER XV.

4403. No one who has not attended two full courses of instruction of at least twelve weeks each, and graduated at a school of medicine, either in the United States or a foreign country, or who cannot produce a certificate of qualification from a State or county medical society, and is a person of good moral character, shall practice, or attempt to practice, medicine in any of its departments, or prescribe medicine for reward or compensation, for any person within this State, except that when a person has been continuously engaged in the practice of medicine for

*No reply received in answer to enquiry requesting information.

a period of ten years or more, he shall be considered to have complied with the provisions of this chapter; and when a person has been in the continuous practice of medicine for five years or more, he shall be allowed two years in which to comply therewith; and a person violating this section shall not be entitled to any compensation for services rendered.

6396. In counties containing cities of the first class having a population of one hundred and fifty thousand and over, it shall be the duty of physicians and professional midwives to keep a registry of the several births in which they have assisted professionally, which shall contain, as nearly as the same can be ascertained. the time of such birth, sex, color of the child, the names and residences of the parents; and physicians who have attended deceased persons in their last illness, clergymen who have officiated at the funeral and sextons who have buried deceased persons, shall keep a registry of the name, age and residence of such deceased persons at the time of their death. It shall be the duty of the physicians and professional midwives to report fully the births registered by them, as required by this chapter, to the judge of the probate court of the county every three months, viz: on or before the second Monday of the months of January, April, July and October of each year; in case there is no physician or midwife in attendance at any birth, then the parents shall be required to report to the probate judge within one month; and physicians, clergymen and sextons shall likewise report fully the deaths registered by them, as required by this chapter, to the judge of the probate court of the county every three months as above designated; and any person who shall neglect or refuse to comply with or violate the provisions of this chapter, shall forfeit and pay for each offense the sum of ten dollars, to be sued for and recovered in the name of the State of Ohio, and the penalty, when recovered, shall be paid over, one-half to the school fund and one-half to the party making complaint thereof.

6813. Whoever, while in a state of intoxication, prescribes or administers any poison, drug or medicine to another, which endangers the life of such other person, shall be fined not exceeding one hundred dollars, and imprisoned not more than twenty days.

6815. Whoever prescribes any drug or medicine to another, the true nature and composition of which he does not, if inquired of, truly make known, but avows the same a secret medicine or composition, and thereby endangers the life of such other person, shall be fined not exceeding one hundred dollars, and imprisoned not more than twenty days.

6990. Whoever uses upon another an anaesthetic, unless at its administration, and during the whole time the person is wholly or partly under the direct influence of it, there is present a third person competent to be a witness, shall be fined not more than twenty-five, nor less than five dollars.

6992. Whoever prescribes, or practices or attempts to practice, medicine in any of its departments, or performs or attempts to perform a surgical operation, without having attended two full courses of instruction, and graduated at a school of medicine, either in this or a foreign country, or who cannot produce a certificate of qualification from a State or county medical society, shall, for the first offense, be fined not more than one hundred dollars, nor less than fifty dollars, and for each subsequent offense be imprisoned for the term of thirty days.

OREGON.

CAPITAL, SALEM.

POPULATION OF STATE, 174,768.

(Census of 1880.)

Males	103,381	Native	144,265
Females	71,387	Foreign	30,503
White	163,075	Chinese	9,512
Colored	487	Indians	1,694

The State of Oregon extends from 42° to 46° 18′ north latitude and from 116 40′ to 124° 25′ west longitude, and is bounded on the north by Washington Territory, from which it is partly separated by the Columbia River, on the south by California and Nevada, on the east by Idaho, and on the west by the Pacific Ocean. It comprises an area of 95,274 square miles, or 60,975,360 acres, and is divided unequally by the Cascade Mountains. East of them the surface is an undulating tableland diversified with cone-shaped hills and deep canons. Between the Cascade and coast ranges is the fertile valley of the Willamette, 140 miles in length and about 40 in width; and from the coast range west the surface is hilly and mountainous. This last named section is adapted to stock raising and wool growing, and winter wheat, hay and oats thrive here. All cereals flourish luxuriantly in the Willamette valley, and the eastern portion is the great stock-raising section of Oregon.

The principal rivers are the Columbia, the Snake, the Willamette, the Umpqua, the Rogue and the Klamath.

The climate is mild, equable and salubrious, the mean annual temperature ranging from 44° near the Cascade mountains to 50° in the vicinity of the ocean. The average annual rainfall increases from 44 inches in the mountains to 60 near the sea coast. Dense forests of coniferous trees cover the valleys and hill slopes, and there is no lack of the different varieties of deciduous trees common to the Pacific coast. Gold, silver, coal, iron and copper are all found in paying quantities, and constitute the mineral wealth of Oregon.

The following table shows increase in population since 1850:

1850	13,294	1870	90,923
1860	52,465	1880	174,768

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 1,075; capital invested, $6,284,256; number of hands employed, 3,424; total wages paid during the year, $1,636,566; value of material, $6,933,336; value of products, $10,879,982.

Following is a list of the principal mineral springs in Oregon: Belknap Hot Springs (Thermal), P. O. McKenzie Bridge, in Lane Co.; Des Chutes Hot Springs (Thermal), in Wasco Co.; Lower Soda Springs (Alkaline), in Linn Co.; Warm Springs, in Cook Co., and Wilhoit's Soda Springs (Saline), P. O. Salem, in Marion Co.

Rate of Mortality in Oregon, as computed from the U. S. census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored	Rate per 1,000 White.	Rate per 1,000 Colored.
174,768	1,864	10.67	1,792	72	10.75	6.15

The total number of deaths from consumption during 1880 was 226, which was at the rate of 1.30 per 1,000 of population, or 121.24 per 1,000 of total deaths.

MEDICAL LAWS OF OREGON.

E. P. Frazer, M. D., permanent secretary of the Oregon State Medical Society, writes concerning the attempts to secure legislation for the regulation of the practice of medicine—

Our bill passed the senate by an almost unanimous vote, but was defeated in the house by a large vote. Two years ago it was the reverse, as it passed the house and was defeated in the senate. We have had a bill of some kind before the legislature at every session for the past ten years, and will continue to do so until we succeed.

CAPITAL, HARRISBURGH.

POPULATION, OF STATE, 4,282,891.

Males	2,136,655	Native	3,695,062
Females	2,146,236	Foreign	587,829
Whites	4,197,016	Chinese	156
Colored	85,532	Indians	184

The second State in the Union, as regards wealth and population, was one of the original 13, and extends from 39° 43′ to 42° 15′ north latitude, and from 74° 40′ to 80° 41′ west longtitude. It comprises an area of 46,000 square miles or 29,440,000 acres, and is bounded on the North by Lake Erie and the State of New York; on the South by Delaware, Maryland and West Virginia; on the East by New York and New Jersey, and on the West by Ohio and West Virginia. The surface is varied, being rolling and broken in the West, hilly and mountains in the interior, and generally level or slightly undulating in the southeast. Several ranges traverse the State from northeast to southwest. The principal rivers of Pennsylvania are the Ohio river, which is formed at Pittsburgh by the confluence of the Allegheny and Monongahela rivers; the Susquehanna river, which drains a large area; the Delaware river, the Juniata river, the Lehigh, Schuylkill and Brandywine rivers, besides which innumerable streams and creeks irrigate and drain the entire State. The climate varies with the elevation; the higher portions are cool in summer, and the winters in these regions are very severe, while the lower portions have very warm summers and milder winters. The mean annual temperature ranges from 44° in the northern counties to 52° in the southeast, and the rainfall varies in like manner from 38 inches to 45 inches, and even more in the southeast corner. Vast forests of coniferous and deciduous trees cover nearly one-fourth of the entire area, and the vegetation generally is rich and varied. The mineral wealth of Pennsylvania consists chiefly of its iron and coal mines, but petroleum, salt, marble, lime stone, granite, graphite, nickel and chromium are found in large and paying quantities. It is pre-eminently an agricultural State, and wheat, corn, oats, tobacco and potatoes are the staples; dairy farming is also an important industry.

The postoffice address is shown in **Display Type,** *the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.*

The following table shows increase in population during the past 60 years :

1820	1,047,507	1860	2,906,215
1830	1,348,233	1870	3,521,951
1840	1,724,033	1880	4,282,891
1850	2,311,786		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 31,225; capital invested, $474,499,993; number of hands employed, 387,112; total wages paid during the year, $134,055,304; value of materials, $462,977,258; value of products, $744,748,045.

The following is a list of the best known mineral springs in the State : Bedford Springs (purgative), in Bedford county ; Blossburg Springs (chalybeate), in Tioga county ; Carlisle Springs (sulphur), in Cumberland county ; Cresson Springs (chalybeate), postoffice Cresson, in Cambria county ; Fayette Springs (chalybeate), in Fayette county ; Gettysburg Springs (calcic), postoffice Gettysburg, in Adams county ; Minnequa Springs (sulphur), in Bradford county, and York Sulphur Springs (sulphur), in Adams county.

Rate of Mortality in Pennsylvania, as computed from the U. S. Census of 1880:

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000, White.	Rate per 1,000, Colored.
4,282,891	63,881	14.92	61,767	2,114	14.71	24.61

Total number of deaths from consumption during 1880 was 8,073, which was at the rate of 1.90 per 1,000 of population, or 126.37 per 1,000 of total deaths.

MEDICAL LAWS OF PENNSYLVANIA.

During the session of 1880–81, an excellent bill was introduced—mainly through the instrumentality of Dr. T. B. Reed, of Philadelphia—into the Pennsylvania Legislature, providing for the creation of a State Board of Health, and the regulation of the practice of medicine through such board. Unexpected hostility to the measure was developed, resulting in its defeat, and the following act was subsequently passed:

AN ACT TO PROVIDE FOR THE REGISTRATION OF ALL PRACTITIONERS OF MEDICINE AND SURGERY.

Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met:

SECTION 1, etc. That the prothonotary of each county shall purchase a book of suitable size, to be known as the medical register of the county (if such book has not been purchased already), and shall set apart one full page for the registration of each practitioner; and when any practitioner shall depart this life, or remove from the county, he shall make a note of the same at the bottom of the page, and shall perform such other duties as are required by this act.

2. Every person who shall practice medicine or surgery, or any of the branches of medicine or surgery for gain, or shall receive or accept for his or her services as a practitioner of medicine or surgery, any fee or reward, directly or indirectly, shall be a graduate of a legally chartered medical college or university having authority to confer the degree of Doctor of Medicine (except as provided for in section five of this act); and such persons shall present to the prothonotary of the county in which he or she resides or sojourns, his or her medical diploma, as well as a true copy of the same, including any endorsements thereon, and shall make affidavit before him that the diploma and endorsements are genuine; thereupon, the prothonotary shall enter the following in the register, to wit: the name in full of the practitioner, his or her nativity, his or her place of residence, the name of the college or university that has conferred the degree of Doctor of Medicine, the year when such degree was conferred, and in like manner any other degree or degrees that the practitioner may desire to place on record; to all of which the practitioner shall make affidavit before the prothonotary, and the prothonotary shall place the copy of such diploma, including the endorsements, on file in his office for inspection by the public.

3. Any person whose medical diploma has been destroyed or lost, shall present to the prothonotary of the county in which he or she resides or sojourns a duly certified copy of his or her diploma; but if the same is not obtainable, a statement of this fact, together with the names of the professors whose lectures he or she attended; and the branches of study upon which each professor lectured, to all of which the practitioner shall make affidavit before the prothonotary, after which the practitioner shall be allowed to register in manner and form as indicated in section two of this act, and the prothonotary shall place such certified statement on file in his office for inspection by the public.

4. Any person who may desire to commence the practice of medicine or surgery in this State after the passage of this act, having a medical diploma issued or purporting to have been issued by any college, university, society or association in another State or foreign country, shall lay

the same before the faculty of one of the medical colleges or universities of this Commonwealth for inspection; and the faculty, being satisfied as to the qualifications of the applicant and the genuineness of the diploma, shall direct the dean of the faculty to endorse the same, after which such person shall be allowed to register as required by section two of this act.

5. Any person who has been in the continuous practice of medicine or surgery in this Commonwealth since one thousand eight hundred and seventy-one without the degree of Doctor of Medicine, shall be allowed to continue such practice, but such person shall nevertheless appear before the prothonotary of the county in which he or she resides, and shall present to him a written statement of these facts, to which the practitioner shall make affidavit. Thereupon, the prothonotary shall enter the following in the register, to-wit: the name in full of the practitioner, his or her place of nativity, his or her place of residence, the time of continuous practice in this Commonwealth, and the place or places where such practice was pursued, to all of which the practitioner shall likewise make affidavit, and the prothonotary shall place the certified statement on file in his office for inspection by the public.

6. Every practitioner who shall be admitted to registration shall pay to the prothonotary one dollar, which shall be compensation in full for registration, and the prothonotary shall give a receipt for the same.

7. Any practitioner who shall present to the faculty of an institution an endorsement, or to a Prothonotary a diploma which has been obtained fraudulently, or is in whole or in part a forgery, or shall make affidavit to any false statement to be filed or registered, or shall practice medicine or surgery without conforming to the requirements of this act, or shall otherwise violate or neglect to comply with any of the provisions of this act, shall be deemed guilty of a misdemeanor, and on conviction shall be punished for each and every offense by a fine of one hundred dollars, one-half to be paid to the prosecutor, and the other half to be paid to the county, or be imprisoned in the county jail of the proper county, for a term not exceeding one year, or both, or either, at the discretion of the court.

8. Nothing in this act shall be so construed as to prevent any physician or surgeon legally qualified to practice medicine or surgery in the State in which he or she resides, from practicing in this Commonwealth; but any person or persons opening an office, or appointing any place where he or she may meet patients or receive calls, shall be deemed a sojourner, and shall conform to the requirements of this act.

9. This act shall take effect on the first day of June, one thousand eight hundred and eighty-one.

10. That all acts or parts of acts heretofore passed, and inconsistent with this act, be and the same are hereby repealed.

A REMEDY FOR SKIN DISEASES.

WILEY & HARRIS'

LIQUOR

CARBONIS DETERGENS

LIQUOR CARBONIS DETERGENS is prepared from **Coal Tar** and **Quillaya Bark.** It is recommended as an application in all Skin Diseases, especially of the **Eczematous** class, in **Parasitic** affections and **Eruptive** troubles, for **Gangrenous Sores, Ulcerated Chilblains, Scabies, Itch,** and **Ulcers,** and many other Obstinate Diseases of the Skin.

IN 16 OZ. BOTTLES. PRICE, ONE DOLLAR.

Messrs. Wiley & Harris:

GENTLEMEN.—I have given your "LIQUOR CARBONIS DETERGENS" a fair trial and found it a valuable application in skin diseases, especially in Eczema and eruptions due to poisonous weeds.

I am slow in using or recommending "new drugs," but the "**Liquor Carbonis Detergens**" I can heartily recommend to the medical profession. Respectfully yours,

M. D. LEHR, M. D.

Our complete catalogue of Drugs, Chemicals, and Pharmaceuticals, mailed on application.

SPECIAL ATTENTION TO PHYSICIANS' SUPPLIES.

NOTE.—The therapeutic action of all remedies is determined by the medical practitioner. In presenting sample, we simply solicit a fair trial, to satisfy the physician of their value and verify the claims made for the respective preparations.

RHODE ISLAND.

CAPITAL, NEWPORT.

POPULATION OF STATE, 276,531.

(Census of 1880.)

Males	133,030	Native	202,538
Females	143,501	Foreign	73,993
White	269,939	Chinese	27
Colored	6,488	Indians	77

Population according to census of 1885, 304,284. Increase per cent, 10.03.

The State of Rhode Island extends from 41° 18′ to 42° 5′ north latitude, and from 71° 8′ to 71° 53′ west longitude, and is bounded on the north and east by Massachusets, on the south by the Atlantic ocean, and on the west by Connecticut. It is the smallest State in the Union, comprising an area of 1,306 square miles or 835,840 acres. The surface is generally rough and hilly, but there are no mountain ranges and but few hills of any eminence.

The principal rivers are the Pawtucket, the Pawcatuck and Pawtuxet, all of which furnish excellent water power.

Nearly one-fourth of the State is woodland. The soil is moderately fertile, but many parts are too rough for cultivation, and the cereal crop is merely nominal.

The climate, like that of all the New England States, is marked by great extremes, the winters being very cold and the summers correspondingly hot. The mean annual temperature at Providence is 47.91, and at Newport 49.39, and the average annual rainfall varies from 40 inches in the eastern part to 44 in the west.

Coal, iron ore, serpentine, limestone, sandstone and marble constitute the mineral wealth of Rhode Island.

The following table shows increase in population for the past 65 years:

1820	83,015	1860	174,620
1830	97,190	1870	217,353
1840	108,830	1880	276,531
1850	147,545	1885	304,284

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 2,205; capital invested, $75,575,943; number of hands employed, 62,878; total wages paid during the year, $21,355,619; value of materials, $58,103,443; value of products, $104,163,621.

There are no medicinal springs in the State.

Rate of Mortality in Rhode Island as Computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000, White.	Rate per 1,000, Colored.
276,531	4,702	17.00	4,523	179	16.75	27.15

Total number of deaths from consumption during 1880, was 691, which was at the rate of 2.50 per 1,000 of populatiqn, or 146.95 per 1,000 of total deaths.

MEDICAL LAWS OF RHODE ISLAND.

Section 12 of chapter 85, Public Statutes of Rhode Island, 1882, having reference to the registration of births, deaths and marriages, provides that every clergyman, physician, coroner, undertaker, or clerk of any meeting of the Society of Friends, shall cause his name and residence to be recorded in the town clerk's office of the town where he resides. By another section of the same chapter he is required to report, without compensation, all still-births, contagious diseases, and results of vaccination.

The physician is exempt from jury and military duty.

SOUTH CAROLINA.

CAPITAL, COLUMBIA.

POPULATION, 995,577.

(Census of 1880.)

Males	490,408	Native	987,891
Females	505,169	Foreign	7,686
Whites	391,105	Chinese	9
Colored	604,332	Indians	131

South Carolina, one of the 13 original States, is bounded on the north by North Carolina, on the southwest by the Savannah river, which separates it from Georgia, and on the southeast by the Atlantic. It extends from 32° to 35° north latitude, and from 78° 35′ to 83° 30′ west longitude, is triangular in shape and comprises an area of 34,000 square miles, or 21,760,000 acres. The northwestern portion is mountainous; the southeastern, low and swampy, and the intervening country is rolling and undulating. The principal rivers of the State are the Santee river, formed by the confluence of the Wateree and Congaree rivers; the Waccamaw river, Cooper river, Ashley river, Savannah river, etc., etc.

The climate is warm, but is tempered in the east by the vicinity of the ocean, and in the west by the elevation. The mean annual temperature ranges from 60° in the north to 67° in the south, and the average annual rainfall is about 45 inches. Vegetation is luxuriant; many of the tropical plants and shrubs flourish in the lower portions of the State and dense pine forests cover vast areas in central South Carolina. Mineral resources of the State are as yet only partially developed and consist of gold, iron ore, copper, lead, manganese and bismuth. Extraordinary crops of cereals and fruits are produced in the irriguous valleys and swamp lands.

The following table shows increase in population during the past 60 years:

1820	502,741	1860	703,708
1830	581,185	1870	705,606
1840	594,398	1880	995,577
1850	668,507		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 2,078, capital invested, $11,205,894; number of hands employed, 22,128; total wages paid during the year, $2,836,289; value of materials, $9,885,538; value of products, $16,738,008.

The best known mineral springs in the State are: Charleston artesian well (saline), Postoffice, Charleston; Chick's springs (sulphur and chalybeate), in Greenville county, and Glenn springs (sulphur), in Spartansburg county.

Rate of Mortality in South Carolina as computed from the U. S. Census of '80.

Population.	Deaths in 1880.	Rate per 1000.	White.	Colored.	Rate per 1000 White.	Rate per 1000 Colored.
995,577	15,728	15.80	5,194	10,534	13.28	17.42

Total number of deaths from consumption during 1880 was 1,543, which was at the rate of 1.50 per 1,000 of population, or 98.10 per 1,000 of total deaths.

MEDICAL LAWS OF SOUTH CAROLINA.

AN ACT TO REGULATE THE LICENSING OF PHYSICIANS AND SURGEONS.

SECTION 1. Be it enacted by the Senate and House of Representatives of the State of South Caro'ina, now met and sitting in General Assembly, and by the authority of the same: A person shall not practice physic or surgery for compensation within the State unless he is twenty-one years of age, and either has been heretofore authorized so to do, pursuant to the laws in force at the time of his authorization, or is hereafter authorized to do so by subsequent sections of this act.

2. From and after the first day of June, 1882, every person now duly authorized to practice physic and surgery within this State, and every person hereafter duly authorized to practice physic and surgery, shall, before commencing to practice, register in the office of the clerk of the court of the county where he is practicing or intends to commence the practice of physic and surgery, in a book to be kept by said clerk, his name, residence, and place of birth, together with his authority for so practicing physic and surgery, as prescribed in this act. The person so registering shall subscribe, and verify by oath or affirmation, before a person duly qualified to administer oaths under the laws of State, an affidavit containing such facts, and whether such authority is by diploma or license, and the date of the same and by whom granted, which, if wilfully false, shall subject the affiant to conviction and punishment for perjury. The said clerk of the court to receive a fee of twenty-five (25) cents for such registration, to be paid by the person so registering. *Provided*, that any registration made in conformity to the provisions of the act herein amended are hereby confirmed and made valid. [This section, an amendment to the original act, was approved July 5, 1882.]

3. A person who violates either of the two preceding sections of this act, or who shall practice physic or surgery under cover of a diploma illegally obtained, is guilty of a misdemeanor, punishable by fine not less than ($50) fifty dollars nor more than ($200) two hundred dollars for the first offense, and each subsequent offense by a fine not less than ($100) one hundred dollars, or by imprisonment for not less than (30) thirty days nor more than (90) ninety days, or both. The fine, when collected, shall be paid, the one-half to the person or corporation making the complaint, the other half into the county treasury.

4. A person coming to the State may be licensed to practice physic or surgery, or either, within the State in the following manner: If he has a diploma conferring upon him the degree of Doctor of Medicine, issued by an incorporated university, medical college or medical school without the State, he shall exhibit the same to the faculty of some incorporated medical college, or the medical board of the State, with satisfactory evidence of his good moral character, and such other evidence, if any, of his qualifications as a physician and surgeon as said medical college or medical board may require. If his diploma and qualifications are approved by them, then they shall endorse said diploma, which shall make it, for the purpose of his license to practice medicine and surgery within the State, the same as if issued by them. The endorsed diploma shall authorize him to practice physic and surgery within the State, upon his complying with the provisions of section two (2) of this act.

5. The medical board referred to in the previous section shall be composed of the physicians and surgeons constituting the local boards of health in various counties of the State—the local board of health for each county having jurisdiction over all matters contrary to this act, occurring within its borders.

6. The degree of Doctor of Medicine lawfully conferred by any medical college or university in this State shall be a license to practice physic and surgery within the State, after the person to whom it is granted shall have complied with section two (2) of this act.

7. Nothing in this act shall apply to commissioned medical officers of the United States army or navy, or the United States marine hospital service.

8. All acts or parts of acts inconsistent with this act are hereby repealed.

Approved Dec. 17, 1881.

SECTION 920 of the General Statutes provides as follows: In no case wherein the provisions of this chapter shall have been violated shall any person so violating receive a compensation for services rendered: *Provided*, that nothing herein contained shall in any way be construed to apply to any person practicing dentistry, or to females practicing midwifery.

TENNESSEE.

CAPITAL, NASHVILLE.

POPULATION OF STATE, 1,542,359.

(Census of 1880.)

Males	769,277	Native	1,525,657
Females	773,082	Foreign	16,702
Whites	1,138,831	Chinese	25
Colored	403,151	Indians	352

The State of Tennessee extends from 35° to 36° 41′ north latitude, and from 81° 45′ to 90° 14′ west longitude, and is bounded on the north by Kentucky and Virginia, on the south by Georgia, Alabama and Mississippi, on the east by North Carolina, and on the west by Arkansas and Missouri. It comprises an area of 45,600 square miles, or 29,184,000 acres. The surface is diversified by mountain ranges, table lands, valleys and low plains. The low lands are covered by vast forests, and the table lands and valleys are exceedingly fertile and yield immense crops of corn, cotton, grain and tobacco. The principal rivers of the State are the Obion, Forked Deer, Hatchee and Loosahatchee in the north, the Cumberland, Tennessee, Holston, Sequatchee, etc. The climate is mild, equable and salubrious, the mean annual temperature as observed at Nashville being 58.32, that of the summer 76.32, and of the winter 39.67. The average annual rainfall is about 45 inches. Tennessee is rich in marble, limestone and other building stones and coal. Copper and iron are abundant.

The following table shows increase in population during the past 60 years :

1820	422,771	1860	1,109,801
1830	681,904	1870	1,258,520
1840	829,210	1880	1,542,359
1850	1,002,717		

The census of manufactures for 1880 shows the total number of establishments in operation at that time to have been 4,326; capital invested, $20,092,845; number of hands employed, 22,445; total wages paid during the year, $5,254,775 ; value of materials, $23,710,125; value of products, $37,074,886.

The following is a list of the best known medicinal springs in the State : Tate Epsom Spring, postoffice Tate Spring in Grainger county ; Swayne's Mammoth Springs, postoffice Springville, in Henry county; Montvale Springs (chalybeate), in Blount county, and Beersheba Springs (chalybeate), in Grundy county.

Rate of Mortality in Tennessee, as computed from the U. S. Census of 1880:

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000, White.	Rate per 1,000, Colored.
1,542,359	25,919	16.80	17,312	8,607	15.20	21.32

Total number of deaths from consumption during 1880 was 3,767, which was at the rate of 2.40 per 1,000 of population, or 145.33 per 1,000 of total deaths.

MEDICAL LAWS OF TENNESSEE.

C. C. Fite, M. D., secretary of the Tennessee State Board of Health, writes: We have no laws bearing upon the practice of medicine. In this State the practice of medicine is free to all. Indians, negroes, confidence men and all that ilk ply their "trade" with no restrictions whatever. Any man who claims to be a doctor is one; hence druggists who do not know enough to make a living, turn out as doctors in full practice before you know it. A farmer boy too lazy to plow reads an old work on practice, or "Every Man his own Doctor," invests $6 in drugs and is a physician, and *being a "regular" we all consult with him.* Our legislatures will not touch, and our doctors are too timid to press, the subject; and so we languish in the old paths.

TEXAS.

CAPITAL, AUSTIN.

POPULATION OF STATE, 1,591,749.

(Census of 1880).

Males	837,840	Native	1,477,133
Females	753,909	Foreign	114,616
White	1,197,237	Chinese	136
Colored	393,984	Indians	992

Texas, the largest State in the Union, extends from 25° 51′ to 36° 30′ north latitude, and from 93° 31′ to 106° 43′ west longitude, and is bounded on the north by the Indian Territory, on the southeast by the Gulf of Mexico, on the southwest by Mexico, on the east by Arkansas and Louisiana, and on the west by New Mexico. It comprises an area of 274,356 square miles, or 175,587,840 acres. The surface is diversified, and includes mountain ranges, low fertile valleys, rolling prairies and arid table lands.

The State is well watered, the principal rivers being the Rio Grande, Red Sabine, Trinity, Brazos, Colorado, Guadalupe, San Antonio and Nueces.

The climate is warm, but equable and salubrious, and the mean annual temperature, as observed at Austin, is 66.72, and at Galveston 69.38. In the extreme south it is about 75, and in the north it falls to 56. The average annual rainfall is about 41 inches.

The borders of the streams are fringed by belts of deciduous trees. Cotton and corn are the agricultural staples, but Texas is pre-eminently a stock-raising State, and immense herds of cattle roam over the extensive prairies.

The mineral resources of Texas are great, and as yet are but partially developed. The precious metals are found in the mountain chains in the west, and coal, iron, salt, chalcedony, jasper, sand and limestone abound.

The following table shows increase in population during the past 30 years :

1850	212,592	1870	818,579
1860	604,215	1880	1,591,749

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 2,996; capital invested, $9,245,561; number of hands employed, 12,159; total wages paid during the year, $3,343,087; value of materials, $12,956,269; value of products, $20,719,928.

The best known mineral springs in the State are Fairview Springs, in Limestone county; Piedmont Springs, postoffice Millican, in Grimes county, and White Sulphur Springs, in Cass county.

Rate of Mortality in Texas, as computed from the U. S. census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored	Rate per 1,000 White.	Rate per 1,000 Colored.
1,591,749	24,735	15.54	18,998	5,737	15.87	14.54

The total number of deaths from consumption during 1880 was 1,622, which was at the rate of 1.00 per 1,000 of population, or 65.57 per 1,000 of total deaths.

MEDICAL LAWS OF TEXAS.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE.

Be it enacted by the Legislature of the State of Texas :

SECTION 1. That no person shall be permitted to practice medicine, in any of its branches or departments, in this State, without first having a certificate of qualification from some authorized board of medical examiners, as hereinafter provided.

2. That every person who may hereafter engage in the practice of medicine, in any of its branches or departments, in this State, shall, before entering upon such practice, furnish to the clerk of the district court of the county in which said practitioner may reside or sojourn, his certificate of qualification; and said clerk shall enter the name of said person in a well-bound book, kept in his office for that purpose, together with the time when, the place where, and the person or persons by whom such certificate of qualification was given, after which he shall return the said certificate to the owner thereof ; for which service said clerk shall be entitled to receive from each, any and every such applicant the sum of one dollar.

3. That the presiding judges of the district courts of the several judicial districts shall, at the first regular term of their courts after this act shall become a law, or as soon thereafter as practicable, severally appoint a board of medical examiners for their respective districts, to be composed of not less than three practicing physicians of known ability, and having certificates of qualification for the practice of medicine under the "Act to Regulate the Practice of Medicine," passed May 16, 1873, and said board of examiners to continue in office two years from and after their appointment ; and they shall, immediately after accepting such appointment, elect one of their number president, and one as secretary, and adopt all necessary rules for the guidance and control of their meetings. It shall be the duty of said board of medical examiners to examine all applicants for certificates of qualification to practice medicine in any of its branches or departments, in this State, whether such applicants are furnished with medical diplomas or not, upon the following named subjects, to-wit : anatomy, physiology, pathological anatomy and pathology, surgery, obstetrics and chemistry ; said examination to be thorough. When the said board of medical examiners shall have been satisfied as to the qualifications of said applicant, they shall grant to him a certificate to that effect, which certificate shall be recorded with the clerk of the district court of the county in which said applicant may reside or sojourn, as provided in section two of this act, which certificate shall entitle him to practice anywhere in this State. Such board of examiners shall be entitled to receive the sum of fifteen dollars for each and every such applicant, to be paid by the applicant or party so examined ; and two of them shall have authority to grant certificates, and whenever a vacancy occurs in any of said boards, the same shall be filled by appointment by the judge of the district in which such vacancy occurs.

4. That said boards shall meet regularly semi-annually at some central point in their respective districts to conduct examinations and grant certificates, as hereinbefore provided, and they shall give at least one month's public notice of said meeting, by publication, in some paper published in the judicial district, specifying the time and place thereof : *Provided*, that any member of any of said boards shall have authority to grant temporary license or certificate to an

applicant, upon examination, until the next regular meeting of the board, at which time the temporary license shall cease; but the said applicant must apply for a thorough examination. Each and every one of such boards shall procure a seal, as soon as practicable after their organization, which seal shall be impressed upon every certificate granted.

5. That any person violating any of the provisions of this act shall be guilty of a misdemeanor, and on conviction thereof, before any court having competent jurisdiction, shall be fined in any sum not less than fifty dollars, and not more than five hundred dollars, for every such offense; one-half of such fine shall be paid to the prosecutor, and the other half into the county treasury; and it shall be the duty of the judge of each judicial district, at each term of the district court in the respective counties composing his district, to charge the grand jury with the necessity of preserving this act inviolate, and to admonish them of their duty to find presentments against any and all persons guilty of its infraction: *Provided*, that nothing in this act shall be so construed as to exclude or disqualify any person who may have been already qualified for the practice of medicine under the act of May 16, 1873: *Provided*, that nothing in this act shall be so construed as to apply to those who have been regularly engaged in the general practice of medicine in this State, in any of its branches or departments, for a period of five consecutive years in this State, prior to the first pay of January, 1875; nor to those who have obtained certificate of qualification under said act; nor to females who follow the practice of midwifery, strictly as such.

6. An Act entitled "An act to regulate the practice of medicine," passed sixteenth of May, 1873, and all other laws or parts of laws in conflict herewith, are hereby repealed.

6. It being important that the benefits of this act be realized at once, creates such imperative public necessity and an emergency as requires that it be of force and effect upon its passage, and it is so declared.

Approved August 21, 1876.

Article 396 of the Penal Code provides: If any person shall practice for pay, or as a regular practitioner, medicine in this State, in any of its branches or departments, or offer or attempt to practice without first having obtained a certificate of professional qualification from some authorized board of medical examiners, or without having a diploma from some accredited medical college, chartered by the legislature of the State or its authority, in which the same is situated, he shall be punished by fine of not less than fifty nor more than five hundred dollars.

Article 398. If any person shall hereafter engage in the practice of Medicine in any of its branches or departments, for pay, or as a regular practitioner, without having first filed for record with the clerk of the district court of the county in which such person may reside or sojourn, a certificate from some authorized board of medical examiners, or a diploma from some accredited medical college, he shall be punished as prescribed in Article 396.

Approved March 26, 1879.
